**Federal State Autonomous Educational Institution
of Higher Education "Peoples' Friendship University of Russia"**

Faculty of Economics

(name of the main educational unit (OUP)-developer of the EP HE)

COURSE WORKING PROGRAM

Custom and tariff regulation

(name of the discipline/module)

Recommended by the MSS for the direction of training/specialty:

38.04.02 «Management»

(code and name of the training area/specialty)

The development of the discipline is carried out within the framework of the implementation of the main professional educational program of higher education (EP HE):

International marketing

(name (profile/specialization) of the EP HE)

1. COURSE GOALS

The aim of the "Custom and tariff regulation" course is to develop students' knowledge, abilities and skills in terms of methods of studying of market conditions and executing the modern procedures of Custom and tariff regulation at the world markets, using current international information sources and programs

2. REQUIREMENTS FOR THE RESULTS OF MASTERING THE DISCIPLINE

The development of the discipline "Custom and tariff regulation" is aimed at the formation of the following competencies (parts of competencies) in students:

Table 2.1. List of competencies formed by students during the development of the discipline (results of the development of the discipline)

Code	Competence	Competence achievement indicators (within this course)
GPC-1	Able to solve professional problems based on knowledge (at an advanced level) of economic, organizational and management theory, innovative approaches, generalization and critical analysis of management practices	<p>GPC-1.1 Possesses fundamental knowledge in the field of management</p> <p>GPC-1.2 Knows how to use fundamental knowledge of economic, organizational and management theory for the successful implementation of professional activities</p> <p>GPC-1.3 Applies innovative approaches to solving management problems, taking into account the generalization and critical analysis of best management practices</p> <p>GPC-1.4 Possesses the skills of an informed choice of methods for solving practical and research problems</p>
PC-1	Able to conduct marketing research, taking into account the influence of the international marketing environment using the tools of a modified marketing mix corresponding to the latest global trends	<p>PC-1.1 Knows the goals, stages and procedures for conducting marketing research</p> <p>PC-1.2 Able to work with digital data, assess its sources and relevance</p> <p>PC-1.3 Knows how to evaluate the economic and social effectiveness of marketing research</p> <p>PC-1.4 Knows the principles of interpreting the results of scientific research in professional activities</p>
PC-3;	Capable of developing, implementing and improving pricing strategies in international markets	<p>PC-3.1 Knows the main strategic and tactical aspects of setting prices in the distribution channel in international markets</p> <p>PC-3.2 Knows the specifics of pricing for tangible and intangible goods in international markets</p> <p>PC-3.3 Knows how to develop a pricing strategy taking into account market factors in international markets</p> <p>PC-3.4 Owns tools for assessing the value of a product offer (price compliance with market expectations)</p>

Code	Competence	Competence achievement indicators (within this course)
PC-4;	Capable of developing, implementing and improving the distribution system and sales policy in international markets	PC-4.1 Knows the components of the system of commodity circulation in the market, their essence, conditions, features of organization, functioning and ways to minimize costs in international markets PC-4.2 Knows the main forms of the company's entry into the international market PC-4.3 Knows how to manage the processes of supply and distribution of goods in the industry markets of the international level PC-4.4 Possesses the skills of modeling and designing the activities of an enterprise in the international markets for goods and services PC-4.5 Knows the main channels of distribution and promotion of goods in international marketing
PC-7	Capable of developing, implementing and improving the marketing communications system of an international company	PC-5.1 Knows the main formats of marketing communications in international markets PC-5.2 Knows the specifics of working with various promotion tools at the international level PC-5.3 Knows how to navigate modern methods of promotion in international markets PC-5.4 Is able to develop strategic marketing solutions in the field of advertising PC-5.5 Knows how to plan an advertising campaign PC-5.6 Has the skills to assess the effectiveness of a promotion strategy in international markets

3. THE PLACE OF DISCIPLINE IN THE STRUCTURE OF THE EP HE

The discipline "Custom and tariff regulation" refers to the variable component formed by the participants of the educational relations of the block B1 of the EP HE.

Within the framework of the EP HE, students also master other disciplines and/or practices that contribute to achieving the planned results of mastering the discipline "Custom and tariff regulation".

Table 3.1. List of EP HE components contributing to the achievement of the planned results of mastering the discipline

Code	Competence name	Previous courses	Next courses
GPC-1	Able to solve professional problems based on knowledge (at an advanced level) of economic, organizational and management theory, innovative approaches, generalization and critical analysis of management practices	Corporate marketing at global markets Managerial Decision Making	R&D practice

PC-1	Able to conduct marketing research, taking into account the influence of the international marketing environment using the tools of a modified marketing mix corresponding to the latest global trends	Corporate marketing at global markets Managerial Decision Making	R&D practice
PC-3;	Capable of developing, implementing and improving pricing strategies in international markets	Management organization theory Strategic Analysis Finance organizations Marketing Metrics Marketing management in international companies	R&D practice
PC-4;	Capable of developing, implementing and improving the distribution system and sales policy in international markets	Management organization theory Strategic Analysis Finance organizations Marketing Metrics Marketing management in international companies	R&D practice
PC-7	Capable of developing, implementing and improving the marketing communications system of an international company	Management organization theory Strategic Analysis Finance organizations Marketing Metrics Marketing management in international companies	R&D practice

* - filled in according to the competence matrix and the SP EP HE

4. SCOPE OF DISCIPLINE AND TYPES OF ACADEMIC WORK

The total labor intensity of the discipline "Custom and tariff regulation" is 3 credits.

Description of the point-rating system

Conditions and criteria for grading. Students are required to attend lectures and seminars, participate in certification tests, and complete teacher assignments. Active work at the seminar is especially appreciated (the ability to conduct a discussion, a creative approach to the analysis of materials, the ability to clearly and succinctly formulate their thoughts), as well as the quality of preparation of control papers (tests), presentations and reports.

Grades in the disciplines taught are set based on the results of the study demonstrated by students throughout the entire period of study (usually a semester). The final grade is determined by the sum of points received by students for various types of work during the entire period of study provided by the curriculum.

All types of educational work are carried out exactly within the time limits stipulated by the training program. If a student has not completed any of the training tasks without valid reasons (missed a test, passed an abstract later than the due date, etc.), then points are not awarded to him for this type of academic work, and works prepared later than the due date are not evaluated. For various types of work during the entire period of study, a student can receive a maximum amount of 100 points.

Point-rating system of knowledge assessment, rating scale

BRS points	Traditional assessments of the Russian Federation	ECTS scores
95 – 100	Excellent – 5	A (5+)
86 – 94		B (5)
69 – 85	Good – 4	C (4)
61 – 68	Satisfactory – 3	D (3+)
51 – 60		E (3)
31 – 50	Unsatisfactory – 2	FX (2+)
0 – 30		F (2)
51 - 100	Test	Passed

Description of ECTS grades:

A ("Excellent") - the theoretical content of the course has been fully mastered, without gaps, the necessary practical skills of working with the mastered material have been formed, all the training tasks provided for in the training program have been completed, the quality of their performance is estimated by the number of points close to the maximum.

In ("Very good") - the theoretical content of the course is fully mastered, without gaps, the necessary practical skills of working with the mastered material are mainly formed, all the training tasks provided for in the training program are completed, the quality of most of them is estimated by the number of points close to the maximum.

C ("Good") - the theoretical content of the course has been fully mastered, without gaps, some practical skills of working with the mastered material have not been sufficiently formed, all the training tasks provided for in the training program have been completed, the quality of none of them has been evaluated with a minimum number of 5 points, some types of tasks have been completed with errors.

D ("Satisfactory") - the theoretical content of the course has been partially mastered, but the gaps are not significant, the necessary practical skills of caring for the mastered material have been mainly formed,

most of the training tasks provided for in the training program have been completed, some of the completed tasks may contain errors.

E ("Mediocre") - the theoretical content of the course has been partially mastered, some practical work skills have not been formed, many of the training tasks provided for in the training program have not been completed, or the quality of some of them is estimated by the number of points close to the minimum.

FX ("Conditionally unsatisfactory") - the theoretical content of the course has been partially mastered, the necessary practical skills have not been formed, most of the training tasks provided for in the training program have not been completed or the quality of their performance has been assessed by a number of points close to the minimum; with additional independent work on the course material, it is possible to improve the quality of the training tasks

F ("Certainly unsatisfactory") - the theoretical content of the course has not been mastered, the necessary practical work skills have not been formed, all completed training tasks contain gross errors, additional independent work on the course material will not lead to any significant improvement in the quality of training tasks.

Fund of evaluation funds for conducting intermediate certification of students in the discipline

Materials for assessing the level of mastering the educational material of the discipline (evaluation materials), including a list of competencies indicating the stages of their formation, a description of indicators and criteria for assessing competencies at various stages of their formation, a description of evaluation scales, standard control tasks or other materials necessary for assessing knowledge, skills, and (or) experience of activity characterizing the stages of competence formation in the process of mastering the educational program, methodological materials defining the procedures for assessing knowledge, skills, skills and (or) experience of activity characterizing the stages of competence formation have been developed in full and are available to students on the discipline page in the TUIS RUDN.

The program is compiled in accordance with the requirements of the OS in the RUDN
