

**Federal State Autonomous Educational Institution
of Higher Education "Peoples' Friendship University of Russia"**

Faculty of Economics

(name of the main educational unit (OUP)-developer of the EP HE)

COURSE WORKING PROGRAM

Digital marketing

(name of the discipline/module)

Recommended by the MSS for the direction of training/specialty:

38.04.02 «Management»

(code and name of the training area/specialty)

The development of the discipline is carried out within the framework of the implementation of the main professional educational program of higher education (EP HE):

International marketing and management

(name (profile/specialization) of the EP HE)

1. COURSE GOALS

The purpose of mastering the discipline "Digital marketing" is to develop students' skills in assessing the internal and external environment of an enterprise, determining the effectiveness of marketing projects; forming a system of indicators for a comprehensive business assessment.

2. REQUIREMENTS FOR THE RESULTS OF MASTERING THE DISCIPLINE

The development of the discipline "Digital marketing" is aimed at the formation of the following competencies (parts of competencies) in students:

Table 2.1. List of competencies formed by students during the development of the discipline (results of the development of the discipline)

Code	Competence	Competence achievement indicators (within this course)
UC-2;	Able to manage a project at all stages of its life cycle	UC-2.1 Formulates a problem, the solution of which is directly related to the achievement of the project goal UC-2.2 Determines the links between the tasks and the expected results of their solution UC-2.3 Within the framework of the tasks set, it determines the available resources and restrictions, the current legal norms UC-2.4 Analyzes the schedule for the implementation of the project as a whole and chooses the best way to solve the tasks, based on the current legal regulations and available resources and restrictions UC-2.5 Monitors the progress of the project, adjusts the schedule in accordance with the results of control
GPC-2;	Able to apply modern techniques and methods of data collection, advanced methods of data processing and analysis, including the use of intelligent information and analytical systems, when solving managerial and research problems	GPC-2.1 Owns modern techniques and methods of data collection, methods of searching, processing, analyzing and evaluating information to solve management problems GPC-2.2 Analyzes and simulates management processes in order to optimize the organization's activities GPC-2.3 Uses modern digital systems and methods in solving management and research problems
GPC-3;	Able to independently make informed organizational and managerial decisions, assess their operational and organizational effectiveness and social significance, ensure their implementation in a complex (including cross-cultural) and dynamic environment	GPC-3.1 Skills in the methods of making optimal management decisions in a dynamic business environment GPC-3.2 Makes informed organizational and managerial decisions GPC-3.3 Assesses the operational and organizational effectiveness and social significance of organizational and management decisions GPC-3.4 Provides the implementation of organizational and management decisions in a complex (including cross-cultural) and dynamic environment

Code	Competence	Competence achievement indicators (within this course)
PC-7	Capable of planning and overseeing the marketing activities of an international company	PC-7.1 Knows the stages of international strategic planning PC-7.2 Knows the criteria for determining key indicators used in planning the marketing activities of an enterprise at the international level PC-7.3 Knows how to form marketing plans PC-7.4 Is able to develop the main business processes of an enterprise related to marketing activities PC-7.5 Owns the methods of developing and implementing marketing programs PC-7.6 Owns the methods of making tactical and operational decisions in the management of the marketing activities of the enterprise

3. THE PLACE OF DISCIPLINE IN THE STRUCTURE OF THE EP HE

The discipline "Digital marketing" refers to the variable component formed by the participants of the educational relations of the block B1 of the OP HE.

Within the framework of the educational program, students also master other disciplines and/or practices that contribute to achieving the planned results of mastering the discipline "Digital marketing".

Table 3.1. The list of the components of the educational program that contribute to the achievement of the planned results of the development of the discipline

Code	Competence name	Previous courses	Next courses
UC-2;	Able to manage a project at all stages of its life cycle		Methodology of management problems research Digital marketing Innovative entrepreneurship Research work
GPC-2;	Able to apply modern techniques and methods of data collection, advanced methods of data processing and analysis, including the use of intelligent information and analytical systems, when solving managerial and research problems		Methodology of management problems research Innovative entrepreneurship Negotiation techniques Research work

Code	Competence name	Previous courses	Next courses
GPC-3;	Able to independently make informed organizational and managerial decisions, assess their operational and organizational effectiveness and social significance, ensure their implementation in a complex (including cross-cultural) and dynamic environment		Modern strategic analysis Finances of organizations Marketing audit
PC-7	Capable of planning and overseeing the marketing activities of an international company		Managerial economics Finances of organizations Digital marketing Marketing forecasting methods

* - it is filled in in accordance with the matrix of competencies and SP EP HE

4. SCOPE OF DISCIPLINE AND TYPES OF ACADEMIC WORK

The total labor intensity of the discipline "Digital marketing" is 4 credit units.

Table 4.1. Types of educational work by periods of mastering the EP in for FULL-time education

Description of the point-rating system

Conditions and criteria for grading. Students are required to attend lectures and seminars, participate in certification tests, and complete teacher assignments. Active work at the seminar is especially appreciated (the ability to conduct a discussion, a creative approach to the analysis of materials, the ability to clearly and succinctly formulate their thoughts), as well as the quality of preparation of control papers (tests), presentations and reports.

Grades in the disciplines taught are set based on the results of the study demonstrated by students throughout the entire period of study (usually a semester). The final grade is determined by the sum of points received by students for various types of work during the entire period of study provided by the curriculum.

All types of educational work are carried out exactly within the time limits stipulated by the training program. If a student has not completed any of the training tasks without valid reasons (missed a test, passed an abstract later than the due date, etc.), then points are not awarded to him for this type of academic work, and works prepared later than the due date are not evaluated. For various types of work during the entire period of study, a student can receive a maximum amount of 100 points.

Point-rating system of knowledge assessment, rating scale

BRS points	Traditional assessments of the Russian Federation	ECTS scores
95 – 100	Excellent – 5	A (5+)
86 – 94		B (5)
69 – 85	Good – 4	C (4)
61 – 68	Satisfactory – 3	D (3+)
51 – 60		E (3)
31 – 50	Unsatisfactory – 2	FX (2+)
0 – 30		F (2)
51 - 100	Test	Passed

Description of ECTS grades:

A ("Excellent") - the theoretical content of the course has been fully mastered, without gaps, the necessary practical skills of working with the mastered material have been formed, all the training tasks provided for in the training program have been completed, the quality of their performance is estimated by the number of points close to the maximum.

In ("Very good") - the theoretical content of the course is fully mastered, without gaps, the necessary practical skills of working with the mastered material are mainly formed, all the training tasks provided for in the training program are completed, the quality of most of them is estimated by the number of points close to the maximum.

C ("Good") - the theoretical content of the course has been fully mastered, without gaps, some practical skills of working with the mastered material have not been sufficiently formed, all the training tasks provided for in the training program have been completed, the quality of none of them has been evaluated with a minimum number of 5 points, some types of tasks have been completed with errors.

D ("Satisfactory") - the theoretical content of the course has been partially mastered, but the gaps are not significant, the necessary practical skills of caring for the mastered material have been mainly formed, most of the training tasks provided for in the training program have been completed, some of the completed tasks may contain errors.

E ("Mediocre") - the theoretical content of the course has been partially mastered, some practical work skills have not been formed, many of the training tasks provided for in the training program have not been completed, or the quality of some of them is estimated by the number of points close to the minimum.

FX ("Conditionally unsatisfactory") - the theoretical content of the course has been partially mastered, the necessary practical skills have not been formed, most of the training tasks provided for in the training program have not been completed or the quality of their performance has been assessed by a number of points close to the minimum; with additional independent work on the course material, it is possible to improve the quality of the training tasks

F ("Certainly unsatisfactory") - the theoretical content of the course has not been mastered, the necessary practical work skills have not been formed, all completed training tasks contain gross errors, additional independent work on the course material will not lead to any significant improvement in the quality of training tasks.

Fund of evaluation funds for conducting intermediate certification of students in the discipline

Materials for assessing the level of mastering the educational material of the discipline (evaluation materials), including a list of competencies indicating the stages of their formation, a description of indicators and criteria for assessing competencies at various stages of their formation, a description of evaluation scales, standard control tasks or other materials necessary for assessing knowledge, skills, and (or) experience of activity characterizing the stages of competence formation in the process of mastering the educational program, methodological materials defining the procedures for assessing knowledge, skills, skills and (or) experience of activity characterizing the stages of competence formation have been developed in full and are available to students on the discipline page in the TUIS RUDN.

The program is compiled in accordance with the requirements of the OS in the RUDN
