**Federal State Autonomous Educational Institution for Higher Education
PEOPLES' FRIENDSHIP UNIVERSITY OF RUSSIA
(RUDN University)**

Law institute

(name of the main educational division - the developer of the postgraduate program)

International law

(name of the Educational Department - the developer of the postgraduate program)

SCIENTIFIC ACTIVITY PLAN

Scientific specialty:

5.1. 5 . International legal sciences

(code and name of scientific specialty)

Scientific research is carried out as part of the implementation of the postgraduate program:

Legal sciences: Contemporary international law / Международно-правовые науки

(name of postgraduate program)

2022

1. PURPOSE OF RESEARCH

The purpose of performing scientific research (carrying out scientific (research) activities) is the preparation of a dissertation for the scientific degree of a candidate of sciences (hereinafter referred to as a dissertation) for defense.

2. PLANNED RESULTS OF SCIENTIFIC RESEARCH

Solving a scientific problem that is important for the development of the relevant branch of science, or developing a new scientifically based technical, technological or other solution that is essential for the development of the country.

Preparation of a dissertation for defense includes the implementation of an individual plan of scientific activity, writing, design and submission of a dissertation for final certification.

The plan of scientific activity includes an approximate plan for the implementation of scientific research, a plan for preparing a dissertation and publications that set out the main scientific results of the dissertation, as well as a list of stages for mastering the scientific component of the postgraduate program, the distribution of these stages and the final certification of postgraduate students.

The plan of scientific activity of a particular student is approved in the individual plan of scientific activity of a postgraduate student, the requirements for which are established by the relevant local normative act of the RUDN University.

3. SCOPE OF RESEARCH

The total labor intensity of scientific research is 150 credits (5400 academic hours).

4. STAGES OF PERFORMING RESEARCH *

Table 5.1. Stages of scientific research

| Name stage | Stage content (topics, activities) | Labor input, academic hours . |
|--|---|-------------------------------|
| 1 course | | |
| Section 1. Scientific activity of a postgraduate student aimed at preparing a dissertation for defense | Preparation and discussion at the department of the dissertation concept and approval of the topic; | 1152 |
| | Preparation of historiographical and experimental/source base of the research; | |
| | Speech at a scientific conference on the results of the study | |
| | Participation in competitions for the financing of scientific research at the expense of the relevant budget, funds for supporting scientific, scientific, technical, innovation activities and other sources not prohibited by the legislation of the Russian Federation | |
| Section 2. Preparation of publications that present the main scientific results of the dissertation | Preparation and publication of scientific and (or) scientific and technical results in the form of a scientific article, theses, mono graphs (at least 1 publication) | 216 |
| Intermediate attestation | | 72 |

| Name stage | Stage content (topics, activities) | Labor input, academic hours . |
|--|---|-------------------------------|
| TOTAL: | | |
| 2 course | | |
| Section 1. Scientific activity of a postgraduate student aimed at preparing a dissertation for defense | Preparation of 1 and 2 chapters of dissertation research | 1728 |
| | Speech at a scientific conference on the results of the study | |
| | Participation in competitions for the financing of scientific research at the expense of the relevant budget, funds for supporting scientific, scientific, technical, innovation activities and other sources not prohibited by the legislation of the Russian Federation | |
| Section 2. Preparation of publications that present the main scientific results of the dissertation | Preparation and publication of at least 3 publications, which set out the main scientific results of the dissertation, of which: Web databases of Science and Scopus and international databases, determined in accordance with the recommendation of the Higher Attestation Commission under the Ministry of Science and Higher Education of the Russian Federation, as well as in scientific publications indexed in the Russian scient metric database Science Citation Index (RSCI) - at least 1 publication in peer-reviewed scientific journals from the list of RUDN University. | 2 16 |
| Intermediate attestation | | 72 |
| TOTAL: | | |
| 3 course | | |
| Section 1. Scientific activity of a postgraduate student aimed at preparing a dissertation for defense | Preparing Chapter 3 dissertation research | 1656 |
| | Preparation and submission of a dissertation for passing the final certification (pre-defense) | |
| | Walkthrough peer review dissertations | |
| | Speech at a scientific conference on the results of the study | |
| Section 2. Preparation of publications that present the main scientific results of the dissertation | Preparation and publication of at least 2 publications, which set out the main scientific results of the dissertation, of which: - at least 1 publication in peer-reviewed scientific journals from the list of RUDN University. | 216 |
| Intermediate attestation | | 72 |

* - the stages of scientific research are FULLY reflected in the review of the student's supervisor.

6. LOGISTICS AND TECHNICAL SUPPORT OF SCIENTIFIC RESEARCH

| Type of audience | Equipment audience | Specialized educational / laboratory equipment, software and materials for mastering the discipline (at need) |
|-------------------------------|---|---|
| Computer Class | A computer class for conducting classes, group and individual consultations, current control and intermediate certification, equipped with personal computers (28 in number), a board (screen) and technical means of multimedia presentations. | A set of specialized furniture; technical means: Monoblocks Multimedia projector Screen for projector Interactive board WiFi |
| For independent work students | An auditorium for independent work of students (can be used for seminars and consultations), equipped with a set of specialized furniture and computers with access to the EIOS. | A set of specialized furniture; technical means: Monoblocs WiFi |

7. RESEARCH METHODS

Scientific research can be carried out both in structural subdivisions of RUDN University or in organizations of Moscow (stationary), and at bases located outside of Moscow (exit).

Conducting scientific research on the basis of an external organization (outside RUDN University) is carried out on the basis of an appropriate agreement, which specifies the terms, place and conditions for performing scientific research in the base organization.

The deadlines for the implementation of scientific research correspond to the period indicated in the calendar academic schedule of the postgraduate program. The timing of the internship can be adjusted upon agreement with the Department for the Training of Highly Qualified Personnel of the RUDN University.

Educational and methodological materials for scientific research:*

1. Guidelines for the preparation of dissertations, scientific publications.

* - all educational and methodological materials for scientific research are posted in accordance with the current procedure on the practice page **in TEIS** !

9. EVALUATION MATERIALS AND ASSESSMENT SYSTEM OF STUDENTS ON THE RESULTS OF THE PERFORMANCE OF SCIENTIFIC RESEARCH

Mandatory activities of the student:

1 year of study:

- preparation and discussion at the department of the concept of the dissertation and approval of the topic;

- preparation of historiographical and experimental/source base of the research;

- presentation at a scientific conference;

- publication of the results of scientific research .

2nd year of study:

- preparation and discussion at the department of part of the dissertation;

- presentation at a scientific conference;

- publication of at least three scientific articles, including two scientific articles on the research topic in a publication included in the list of the Higher Attestation Commission and / or RUDN University or SCOPUS, Web of Science and others equivalent to them and / or approved by the RUDN University Academic Council;

3rd year of study:

- preparation of the entire dissertation and presentation to the supervisor;

- publication of at least two scientific articles, including two scientific articles on the research topic in publications included in the list of HAC and / or PFUR and SCOPUS, Web of Science , others equivalent to them and / or approved by the RUDN University Academic Council;

- discussion of the dissertation at the meeting of the BUP.

Based on the results of the stages of identifying scientific research, the graduate student submits a detailed oral or written report to the supervisor or to the meeting of the PMU. The report includes information characterizing the content of the postgraduate student's work and reflecting the implementation of scientific research.

The report should include information about:

- about the degree of readiness of the dissertation;

- on the preparation and publication of articles in journals included in the list of VAK, RSCI, Scopus , Web of Science and others equivalent to them and / or approved by the RUDN University Academic Council;

- about the participation of a graduate student in scientific and technical events on the topic of his research;

- on participation in the research work of the department (with participation);

- other.

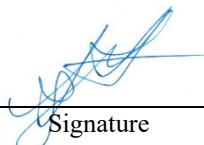

During the period of interim certification, the supervisor provides feedback on the quality, timeliness and success of the postgraduate student's stages of scientific (research) activities.

The results of scientific research for each year of study are determined by conducting an intermediate certification with grading "excellent", "good", "satisfactory", "unsatisfactory" and in the ECT S system (A, B, C, D , E). The basis for their nomination is the point- rating system adopted at the University.
