**Federal State Autonomous Educational Institution  
higher education "Peoples' Friendship University of Russia"**

**Law institute**

---

(name of the main educational unit (PMO) - the developer of the postgraduate program)

**International law**

---

(name of the basic educational unit (BUE) - the developer of the postgraduate program)

## **WORKING PROGRAM OF THE DISCIPLINE**

Specialty discipline  
International legal sciences

---

(name of discipline/module)

**Scientific specialty:**

5.1.5 International legal sciences

---

(code and name of scientific specialty)

**The development of the discipline is carried out as part of the implementation of the postgraduate program:**

International legal sciences

---

(name of postgraduate program)

**2022**

## 1. THE PURPOSE OF MASTERING THE DISCIPLINE

The purpose of mastering the discipline "International legal sciences" is to prepare for the candidate's examinations.

The emphasis is on problematic and topical issues of international law, which is determined by the peculiarities of training specialists of the relevant scientific profile. At the same time, attention is paid to the most common features and characteristic features of the emergence, functioning and subsequent changes in international legal phenomena.

The objectives are to develop the skills of scientific research and increase interest in the study of international legal phenomena, relevant concepts of interaction between subjects of international law in the past and in the present.

## 2. REQUIREMENTS FOR THE RESULTS OF MASTERING THE DISCIPLINE

Mastering the discipline "International Legal Sciences" is aimed at preparing for the candidate's examinations, as well as:

- formation of knowledge among students, allowing them to effectively carry out research activities in the field of international and integration law, as well as teaching activities in educational programs of higher education;
- development of the ability to independently carry out research activities related to solving complex professional problems in modern conditions.

As a result of studying the discipline, the graduate student must:

### ***know:***

- trends in the development of international legal science;
- the main approaches used in modern international law;
- the main research methods used in jurisprudence (both general scientific and special legal);
- actual problems of jurisprudence requiring scientific development;
- algorithm for conducting legal research.

### ***be able to:***

- determine the relevance of scientific research;
- identify the degree of scientific development of a scientific problem;
- formulate goals and objectives of scientific research;
- substantiate the theoretical, normative and empirical base of the study;
- apply methods corresponding to the content, goals and objectives of the study.
- to put forward, substantiate and test scientific hypotheses;
- justify and defend their own scientific position.

### ***own***

- the main approaches used in modern jurisprudence;
- the main categories used in jurisprudence, in particular, in international and integration law;
- both general scientific and special-legal research methods;
- skills in conducting research in the field of law, especially in international legal sciences;
- Skills in conducting comparative legal research.

## 3. VOLUME OF DISCIPLINE AND TYPES OF EDUCATIONAL WORK

The total labor intensity of the discipline is 3 credit units, and the labor intensity of the intermediate certification in the discipline is 1 credit unit.

*Table 4.1. Types of educational work by periods of mastering the postgraduate program*

View educational work	TOTAL , acc.h.	Course			
		1	2	3	four
<i>Contact work , acc.h .</i>	60	60			
including _ number :					
Lectures (L)	30	30			
Laboratory work (LW)					
Practical / Seminar classes (S)	30	30			
<i>Independent work of students, acc .</i>	48	48			
<i>Intermediate attestation: control (exam), acc .</i>	36	36			
General laboriousness disciplines	ac.h. _	144	144		
	credits.	4	4		

## 5. CONTENT OF THE DISCIPLINE

*Table 5.1. The content of the discipline (module) by type of educational work*

Name section disciplines	Content section ( topic )	View educational work
Section 1. Theory of state and law	Tema 1.1. International legal sciences: object, subject, methodology, functions, history of institutions. Interaction with other sciences. Concepts of international law.	L, S
