1. EDUCATIONAL PROGRAMME GOAL

The goal of the PhD program is to prepare and defend a dissertation for the degree of Candidate of Sciences in the scientific specialty Theory and history of architecture, restoration and reconstruction of historical and architectural heritage.

2. BRIEF SUMMARY OF THE PROGRAMME

The PHD program is implemented in full-time education in accordance with the license for the right to carry out educational activities. The term of education under the program is 3 years.

The volume of the program is 180 credit units (hereinafter referred to as credits). The volume of the postgraduate program implemented in one academic year is on average 60 CU.

3. LABOR MARKET NEEDS FOR PERSONAL TRAINING IN EDUCATIONAL PROGRAMME PROFILE

The profession of an architect involves theoretical research in the field of architecture, including the functional, constructive and compositional aspects of design, the typology of buildings and structures, as well as the accessible environment for people with disabilities; study of the problems of preservation, conservation and modernization of the historically developed urban environment, individual architectural complexes and buildings, reconstruction of lost architectural monuments; updating and improving the regulatory framework in the field of architecture, design, construction, operation and reconstruction of objects of professional activity. In professional activities, a postgraduate graduate and / or a candidate of architecture solves one or several types of tasks: research activities in the field of architecture, teaching activities in programs of higher and secondary vocational education in the field of architecture. Graduates who have mastered the program are focused on work in the field of the history of architecture, culture and society and their patterns of development; reconstruction and restoration of monuments of architecture and urban planning; study of the values of historical and architectural heritage.

4. REQUIREMENTS FOR APPLICANTS APPLYING TO THE PHD PROGRAMME

For admission to the program, the Admission Rules are valid, approved by the relevant local regulatory act and posted in the public domain on the official website of RUDN University. A candidate for admission to graduate school must have a diploma of higher education (specialist, master's degree) in a chosen or related specialty, have training in the organization of research work, methods of conducting and processing the results of an experiment, take a systematic approach to describing processes and phenomena in the field of theory and history of architecture, restoration and reconstruction of historical and architectural heritage. It is desirable to have published works in the chosen specialty. An applicant is enrolled in graduate school based on the results of a positive entrance examination on a competitive budgetary or paid basis.

5. STRUCTURE AND WORKLOAD OF THE EDUCATIONAL PROGRAMME FOR PhD STUDIES

Duration of mastering the postgraduate program: 3 years.

Form of education: full-time.

One credit unit corresponds to 36 academic hours.

No.	PhD programme structure	Workload, credit units
1	Scientific Component	149
2	Educational Component	25
2.1	Disciplines (modules)	19
2.2	Internship	6
3	Final attestation	6
PhD programme workload in credit units:		180

6. CHARACTERISTICS OF EDUCATIONAL PROGRAMME GRADUATE'S PROFESSIONAL ACTIVITIES
