(part-time education)

(correspondence education)

AGREED by:

Head  
of Educational Programme  
Yu. M. Pochta

Chairperson  
of Didactic Council  
M.M. Mchedlova

Head  
of Educational  
Department  
V.A. Tsvyk

## **1. EDUCATIONAL PROGRAMME GOAL (MISSION)**

*The goal of the “MA in Political Science, Political Institutions and Values” educational programme is to train specialists in the field of political science. The training is aimed at researching and clarifying the specifics and essence of modern political processes occurring in the world, in line with institutional and civilizational approaches.*

*The educational programme is aimed at developing the knowledge, skills, abilities, and competencies in political science students in accordance with the requirements of the RUDN University OS in the field of study 41.04.04 Political Science.*

## **2. EDUCATIONAL PROGRAMME RELEVANCE, SPECIFICITY, AND UNIQUENESS**

*Today, political science students following the programmes taught in the Russian language learn only about the Russian approach. Meanwhile, the English-taught programmes solely rely on English literature, leaving the Russian context aside. This programme is designed to overcome existing limitations.*

*The programme focuses primarily on the training of foreign students who do not speak Russian.*

## **3. LABOUR MARKET NEEDS FOR PERSONNEL TRAINING IN EDUCATIONAL PROGRAMME PROFILE**

*Graduates of the “MA in Political Science, Political Institutions and Values” educational programme work in state and municipal government bodies in Russia and foreign countries, socio-political organizations, commercial and non-profit structures, academic and scientific research organizations, international departments of government agencies, leading world and Russian media, research and analytical centers, consulting structures (thinktanks), and business corporations whose activities affect the specifics of political science.*

*The need for graduates of the MA in Political Science, Political Institutions and Values programme may be due to the deepening value-political split in world politics, discursive confrontation, and the need to overcome axiological differences in promising foreign policy and public diplomacy.*

## **5. SPECIAL REQUIREMENTS FOR POTENTIAL APPLICANTS**

*The applicant must possess a Bachelor’s or Master’s degree diploma certificate (or equivalent) issued at state institutions in Russia or abroad in the field of Humanities and Social Sciences (History, Philosophy, Sociology, International Relations, Economics, Law, Public Administration).*

*Documented knowledge of English at a level of at least B2 is required.*

*Additional requirements for applicants are determined by the Rules for the Admission of Citizens to the Federal State Educational Autonomous Institution of Higher Education “Parice Lumumba Peoples' Friendship University of Russia”.*

## 6. FEATURES OF EDUCATIONAL PROGRAMME IMPLEMENTATION

6.1. The Educational Programme is implemented with elements / distance learning technologies (if with elements, then indicate which ones specifically).

6.2. The language of the Educational Programme implementation is English.

6.3. The Educational Programme is adapted for education of people with disabilities.

6.4. The Educational Programme is implemented by the Federal State Autonomous Educational Institution of Higher Education "Peoples' Friendship University of Russia.

6.5. The information on the planned introductory/advanced field internships and (or) research & development internships

<b>Internship*</b>	<b>Internship location</b> ( <i>organisation name and location</i> )
Orientation internship (introductory, intramural)	ANO ««Institut diaspori i integracii» («Institut stran SNG»)), Moscow AO «KROS», Moscow OOO «Rossijskaya asociaciya politicheskoy nauki», Moscow
Technological (advanced field internship, industrial, extramural)	ANO ««Institut diaspori i integracii» («Institut stran SNG»)), Moscow AO «KPOC», Moscow OOO «Rossijskaya asociaciya politicheskoy nauki» Moscow, Department of Comparative Political Science, RUDN University named after Patrice Lumumba, Moscow

\* The section should indicate the type (introductory/advanced field internship), the kind (orientation, technological, research, pre-graduate, etc.), and the mode (intramural/ extramural) of internship.

## 7. CHARACTERISTICS OF EDUCATIONAL PROGRAMME GRADUATE'S PROFESSIONAL ACTIVITIES

7.1. The field(s) of professional activities of the Educational Programme graduate, where he/she can carry out his/her professional activities:

Education and science (in the areas of vocational training, secondary vocational and higher education, additional education; scientific research on political science);

Communication, information and communication technologies (in the areas of promotion and distribution of political media products; management of political and information resources on the information and telecommunications network "Internet"),

The sphere of expert and analytical activities and interaction with government authorities and management, non-governmental and international organizations.

7.2. The type(s) of professional activities tasks, which the graduate is trained to solve when mastering the Educational Programme:

Expert and analytical.

## 8. REQUIREMENTS FOR EDUCATIONAL PROGRAMME OUTCOMES

8.1. Upon completion of the Educational Programme, the graduate is expected to acquire the following Generic Competences (GCs):

<b>Code and descriptor of generic competence</b>	<b>Code and competence level indicator</b>
GC-1. Able to critically analyze problem situations based on a systematic approach and develop an action strategy.	GC-1.1. Analyzes the task, highlighting its basic components; GC-1.2. Determines and ranks the information required to solve the task; GC-1.3. Analyzes ways to solve problems of ideological, moral and personal nature based on the use of basic philosophical ideas and categories in their historical development and socio-cultural context.
GC-2. Able to manage a project at all stages.	GC-2.1. Formulates a problem whose solution is directly related to achieving the project goal; GC-2.2. Analyzes the project implementation schedule as a whole and selects the optimal way to solve the assigned tasks, based on current legal norms and available resources and limitations.
GC-3. Able to organize and manage the work of a team, developing a team strategy to achieve the set goal.	GC-3.2. Analyzes the possible consequences of personal actions and plans their actions to achieve a given result; GC-3.3. Exchanges information, knowledge and experience with team members.
GC-4. Capable of using modern communication technologies in the state language of the Russian Federation and foreign language(s) for academic and professional interaction.	GC-4.1. Searches for the necessary information to solve standard communication problems in Russian and foreign languages; GC-4.2. Uses dialogue for cooperation in academic communication, taking into account the personality of the interlocutors, their communicative speech strategy and tactics, and the degree of formality of the situation; GC-4.3. Forms and argues his own assessment of the main ideas of the participants in the dialogue (discussion) in accordance with the needs of joint activities.
GC-5. Able to analyze and take into account the diversity of cultures in the process of intercultural interaction.	GC-5.1. Finds and uses information about the cultural characteristics and traditions of various social groups in social and professional communication; GC-5.2. Collects information on a given topic, taking into account ethnic groups and confessions that are most widely represented at the points where the research is being conducted; GC-5.3. Adheres to the principles of non-discriminatory interaction in personal and mass communication in order to fulfill professional tasks and strengthen social integration.
GC-6. Able to determine and implement the priorities of his own activities and ways to improve them based on self-assessment.	GC-6.1. Analyzes his resources and their limits (personal, situational, temporary, etc.) to successfully complete the task; GC-6.2. Distributes tasks into long-, medium- and short-term ones with justification of relevance and analysis of resources for their implementation.
GC-7. Able to: search for the necessary sources of	GC-7.1. Searches for the necessary sources of information and data, perceives, analyzes, remembers and transmits information using

<b>Code and descriptor of generic competence</b>	<b>Code and competence level indicator</b>
information and data, perceive, analyze, remember and transmit information using digital means, as well as using algorithms when working with data obtained from various sources in order to effectively use the information received to solve problems; evaluate information, its reliability, build logical conclusions based on incoming information and data.	digital means, as well as using algorithms when working with data received from various sources in order to effectively use the received information to solve problems; GC-7.2. Evaluates information, its reliability, builds logical conclusions based on incoming information and data.

8.2. Upon completion of the Educational Programme, the graduate is expected to acquire the following general professional competences (GPCs):

<b>Code and descriptor of general professional competence</b>	<b>Code and competence level indicator</b>
GPC-1. Able to build professional communication in the state language of the Russian Federation and foreign language(s) according to the profile of activity in a multicultural environment based on the use of various communication technologies, taking into account the specifics of the business and spiritual culture of Russia and foreign countries.	GPC-1.1. Builds communication with partners based on the goals and situation of communication, identifying and responding appropriately to cultural, linguistic and other characteristics that affect professional communication and dialogue. GPC-1.2. Uses communication and media technologies, taking into account the specifics of the business and spiritual culture of Russia and foreign countries. GPC-1.3. Confidently and systematically formulates his own position on political processes using scientific terminology, both in written and oral form.
GPC-2. Able to search for and apply promising information and communication technologies and software for comprehensive training and solving problems of professional activity.	GPC-2.1. Applies modern technologies for searching and systematizing information to integrate and forecast the development of political processes. GPC-2.2. Uses specialized databases and software to quickly search for information necessary to solve professional problems.
GPC-3. Capable of assessing, modeling and forecasting global, macro-regional, national-state, regional and local political-cultural, socio-economic	GPC-3.1. Uses theoretical and empirical methods to assess domestic and foreign policy processes at various levels. GPC-3.2. Conducts applied analysis of political processes using qualitative and quantitative methods to evaluate and model various political processes. GPC-3.3. Predicts the development of the situation within the

<b>Code and descriptor of general professional competence</b>	<b>Code and competence level indicator</b>
and socio-political processes based on the use of methods of theoretical and empirical research and applied analysis.	framework of solving major domestic and foreign policy problems, including those affecting the interests of the Russian Federation.
GPC-4. Able to conduct scientific research in his field of activity, including in interdisciplinary fields, independently formulate scientific hypotheses and innovative ideas, and check their reliability.	GPC-4.1. Conducts scientific research in interdisciplinary areas, including setting goals and objectives, choosing research methods, determining the scientific novelty of the problem under study, confirming the reliability of scientific hypotheses, formulating one's own conclusions and recommendations. GPC-4.2. Conducts an expert assessment of political processes and phenomena using methods of political analysis. GPC-4.3. Analyzes domestic and foreign policy problems and processes while observing the principle of scientific objectivity.
GPC-5. Able to build a strategy for promoting publications on the profile of activity in the media based on the basic principles of media management.	GPC-5.1. Independently prepares professionally oriented texts of various genres and stylistics (article, analytical report, information and analytical note, review, policy note, review, policy document, abstract, abstract for a report, press release, etc.). GPC-5.2. Evaluates the target audience and editorial policy of print, audiovisual and Internet media with a socio-political orientation. GPC-5.3. Evaluates the perception of the image of political phenomena and processes formed in the media.
GPC-6. Able to develop and implement organizational and managerial decisions according to the profile of the activity.	GPC-6.1. Organizes and takes part in the implementation of development programmes and strategies. GPC-6.2. Independently formulates job assignments, defining goals, identifying and using information necessary for making management decisions, assesses the need for resources, identifies problems, finds alternatives, selects optimal solutions, evaluates the results and consequences of management decisions.
GPC-7. Able to independently build strategies for presenting the results of his professional activities, including in a public format, based on the selection of appropriate information and communication technologies and information dissemination channels.	GPC-7.1. Builds strategies for presenting the results of professional activities, taking into account their specifics and characteristics of the target audience. GPC-7.2. Builds a convincing argument to achieve the goals of presenting the results of professional activities.
GPC-8. Capable of developing proposals and recommendations for applied research and consulting.	GPC-8.1. Develops a programme of applied political science research. GPC-8.2. Independently prepares an analytical note based on the results of applied political science research.
GPC-9. Able to participate in the implementation of basic professional and	GPC-9.1. Develops and updates (under the guidance of a specialist of a higher qualification level) work programmes for training courses, disciplines (modules) of vocational training programmes, basic

<b>Code and descriptor of general professional competence</b>	<b>Code and competence level indicator</b>
additional educational programmes.	vocational education and additional education. GPC-9.2. Develops and updates (under the guidance of a specialist of a higher qualification level) educational and methodological materials for conducting certain types of training sessions on taught training courses, disciplines (modules) of vocational training programmes, basic vocational education and additional education.
GPC-10. Able to master the tools for working with large amounts of structured and unstructured information, use modern digital methods of processing, analysis, interpretation and visualization of data in order to solve the tasks of professional and research activities in the field of political science.	GPC-10.1. Uses information and communication technologies and software to work with large volumes of information to solve problems of professional and research activities in the field of political sciences; GPC-10.2. Proficient in modern digital methods of data processing, analysis, interpretation and visualization.

8.3. Upon completion of the Educational Programme, the graduate is expected to acquire the following professional competences (PCs)\* :

<b>Code and descriptor of professional competence</b>	<b>Code and competence level indicator</b>	<b>Code and title of occupational standard for relevant PC</b>
PC-1. Able to provide analytical support for the development and adoption of political decisions, including the use of diagnostic skills, analysis, and forecasting of political processes and problem situations.	PC-1.1. Carries out analytical monitoring of political processes, develops forecasts for the development of political processes for the long term. PC-1.2. Independently develops and prepares analytical materials on issues of domestic and foreign policy with the formulation of expert opinions and practical recommendations for officials making political decisions. PC-1.3. Develops strategies for the activities of government bodies, non-governmental organizations and commercial structures in the political sphere of society, depending on the specific political situation.	

\*The Educational Programme's developer formulates the PC, taking into account the requirements of occupational standards and the Educational Programme field of study.

**9. MATRIX OF COMPETENCES that students acquire** when mastering the Educational Programme MA in Political Science, Political Institutions and Values / Political Institutions and Values (English)", implemented under the RUDN University Academic Council decision dated "15" March 2022 (Protocol No. 148) in the field of studies / speciality 41.04.04 "Political Science".

		GENERIC COMPETENCES						
		GC-1. Able to critically analyze problem situations based on a systematic approach and develop an action strategy	GC-2. Able to manage a project at all stages.	GC-3.
