1. EDUCATIONAL PROGRAMME GOAL (MISSION)

The purpose of «international economic relations» program is to train competent, competitive and highly qualified international economists capable of working in large Russian and international companies operating in Russia and abroad in the constantly changing conditions of the global economy and the formation of a new world economic order.

2. EDUCATIONAL PROGRAMME RELEVANCE, SPECIFICITY, AND UNIQUENESS

At the present stage of development of the world economy, there is not a single company, enterprise, bank, etc. that would not be engaged in foreign economic activity. In the era of globalization, international economic relations permeate our entire lives.

Graduates of the bachelor's degree of the profile "International Economic Relations and Foreign Economic Activity" possess the necessary knowledge and skills to conduct professional activities in the field of international trade in goods and services, international finance, international monetary and credit relations, international trade in intellectual property, international settlements and investment activities.

The program is designed for those who want to apply their knowledge in the field of economics at an international level.

Economist in sphere of international economic relations is a very conditional name that unites several professions. In some organizations, a graduate can be engaged in customs declaration of goods, in another - to look for partners abroad and conclude contracts with them, in the third - to analyze markets, consult, minimize financial risks under foreign trade contracts, engage in international procurement of goods and services, international settlements, drawing up schemes for conducting international business, optimizing taxation of international companies, attracting international financial resources, trading in the stock market, formation and expansion of the client base abroad, etc.

The profession of an international economist has always been and remains prestigious, elite and highly paid.

3. LABOUR MARKET NEEDS FOR PERSONNEL TRAINING IN EDUCATIONAL PROGRAMME PROFILE

The program is focused on training specialists capable of defending the national economic interests both in their own country and abroad. Within the framework of the program, the features of conducting international business are studied, both at the level of integration groupings and at the level of individual countries.

After mastering the program, graduates will be able to realize their knowledge: in foreign representative offices of Russian companies, in trade missions, business councils and chambers of commerce and industry in various countries of the world; in multinational companies and investment banks

5. SPECIAL REQUIREMENTS FOR POTENTIAL APPLICANTS

The applicant must have a state document on secondary (full) general education or secondary vocational education.

The remaining requirements are defined in accordance with the Rules for admission of citizens to the Federal State Autonomous Educational Institution of Higher Education "Peoples' Friendship University of Russia".

6. FEATURES OF EDUCATIONAL PROGRAMME IMPLEMENTATION

6.1. The Educational Programme is implemented *with elements* distance learning technologies.

6.2. The language of the Educational Programme implementation is *English*.

6.3. The Educational Programme is *adapted for education* of people with disabilities.

6.4. The Educational Programme is implemented by the Federal State Autonomous Educational Institution of Higher Education "Peoples' Friendship University of Russia

6.5. The information on the planned introductory/advanced field internships and (or) research & development internships

Internship*	Internship location (<i>organisation name and location</i>)
Orientation internship (introductory)	Regional economics and geography department
Technological internship	Surgutneftegaz JSC, Surgut, Khanty-Mansi Autonomous Okrug
Project-technological internship	Limited Liability Company "CRC"
Undergraduate practice	ANO Agency for Technological Development

* The section should indicate the type (introductory/advanced field internship), the kind (orientation, technological, research, pre-graduate, etc.), and the mode (intramural/ extramural) of internship.

7. CHARACTERISTICS OF EDUCATIONAL PROGRAMME GRADUATE'S PROFESSIONAL ACTIVITIES

7.1. The field(s) of professional activities of the Educational Programme graduate, where he/she can carry out his/her professional activities: analytical, research activities, organizational and managerial activities.

7.2. The type(s) of professional activities tasks, which the graduate is trained to solve when mastering the Educational Programme: analytical, research activities, organizational and managerial activities.

7.3. The list of generalised labour functions and labour functions which are related to the professional activities of the Educational Programme graduate and are taken into account in the course of its development.*

Code and title of occupational standard	Generalised labour functions			Labour functions		
	Code	Title	Qualification level	Type	Code	Qualification level (sublevel)
08.039 Professional standard "Specialist in foreign economic activity"	A	Research of foreign markets for the sale of the organization's products	5	Collection and analysis of information on the requirements for the organization's	A/01.5	5

Code and title of occupational standard	Generalised labour functions			Labour functions

				products in foreign markets		
				Determination of competitive advantages of the organization's products in foreign markets	A/02.5	5
08.039 Professional standard "Specialist in foreign economic activity"	B	Implementation of foreign economic activity of the organization	6	Preparation for the conclusion of a foreign trade contract	B/01.6	6
				Documentary support of the foreign trade contract	B/02.6	6
				Organization of transport and logistics support of a foreign trade contract	B/03.6	
				Control over the fulfillment of obligations under a foreign trade contract	B/04.6	

* The wording of labour functions is taken from the relevant Occupational Standards.

8. REQUIREMENTS FOR EDUCATIONAL PROGRAMME OUTCOMES

8.1. Upon completion of the Educational Programme, the graduate is expected to acquire the following Generic Competences (GCs):

Code and descriptor of generic competence	Code and competence level indicator
GC-1 Able to search, critical analysis and synthesis of information, apply a systematic approach to solve tasks	GC--1.1. _ Know how to search information to solve the task for various types of requests; GC--1.2 Able to analyze and contextually process information to solve tasks with the formation of their own opinions and judgments; GC--1.3. _ Able to offer options for solving the problem, analyzes the possible consequences of their use;
GC-2 Able to determine the range of tasks within the set	GC--2.1. Know how to determine the available resources and restrictions, the current legal norms within the framework of the

Code and descriptor of generic competence	Code and competence level indicator
goal and choose the best ways to solve them, based on current legal regulations, available resources and restriction	tasks set; GC--2.2. Able to analyze the schedule for the implementation of the project as a whole and chooses the best way to solve the tasks, based on current legal regulations and available resources and restrictions; GC--2.3 Able to control the progress of the project, adjusts the schedule in accordance with the results of control
GC-3 Able to carry out social interaction and realize their role in the team	GC-3.1 Able to determine the role in the team, based on the strategy of cooperation to achieve the goal GC-3.2 Know how to analyze the possible consequences of personal actions and plans their actions to achieve a given result GC-3.3 Able to argue own point of view regarding the use of the ideas of other team members to achieve the goal
GC-4 Able to communicate in interpersonal and intercultural interaction in Russian as a foreign and foreign language(s) based on the possession of interrelated and interdependent types of reproductive and productive foreign language speech activities, such as listening, speaking, reading, writing and translating in everyday life, socio-cultural, educational-professional, official-business and scientific spheres	GC-4.1 Know how to choose the style of business communication, depending on the language of communication, the purpose and conditions of the partnership GC-4.2 Able to search the necessary information to solve standard communicative tasks in Russian and foreign languages GC-4.3 Know how to use dialogue for cooperation in academic communication of communication, taking into account the personality of the interlocutors, their communicative-speech strategy and tactics, the degree of formality of the situation
GC-5 Able to perceive the intercultural diversity of society in the socio-historical, ethical and philosophical contexts	GC-5.1 Able to professionally communicate on a given topic, in terms of historical heritage and socio-cultural traditions of various social groups, ethnic groups and confessions, including world religions, philosophical and ethical teachings GC-5.2 Know how to substantiate the features of project and team activities with representatives of other ethnic groups and (or) confessions GC-5.3 Able to adhere to the principles of non-discriminatory interaction in personal and mass communication in order to fulfill professional tasks and strengthen social integration
GC-6 Able to manage his time, build and implement a trajectory of self-development based on the principles of education throughout life	GC-6.1 Able to analyze self resources and their limits (personal, situational, temporary, etc.) to successfully complete the task GC-6.2 Know how to find and use sources of additional information to increase the level of general and professional knowledge GC-6.3 Able to define the tasks of self-development, goals and priorities of professional growth
GC-7 Able to maintain the proper level of physical fitness to ensure full-fledged social and professional activities	GC-7.1 Know how to choose health-saving technologies to maintain a healthy lifestyle, taking into account the physiological characteristics of the body GC-7.2 Plan work and leisure time for the optimal combination of physical and mental stress and ensuring performance

Code and descriptor of generic competence	Code and competence level indicator
	GC-7.3 Observe and promote the norms of a healthy lifestyle in various life situations and in professional activities
GC-8 Able to create and maintain safe living conditions in everyday life and in professional activities to preserve the natural environment, ensure the sustainable development of society, including in the event of a threat and the occurrence of emergencies and military conflicts	<p>GC-8.1 Able to analyze the factors of harmful influence on the life of the elements of the environment (technical means, technological processes, materials, buildings and structures, natural and social phenomena)</p> <p>GC-8.2 Know how to identify and resolve issues related to safety violations in the workplace</p> <p>GC-8.3 Able to explain the rules of conduct in the event of emergencies of natural and man-made origin, as well as in the event of military conflicts</p>
GC-9 Able to use basic defectological knowledge in social and professional areas	<p>GC- 9.1 Possess ideas about the principles of non-discriminatory interaction in communication in various spheres of life, taking into account the socio-psychological characteristics of persons with disabilities</p> <p>GC-9.2 Able to plan and carry out professional activities with persons with disabilities or disabilities</p> <p>GC-9.3 Know how to interact with persons with disabilities in social and professional areas</p>
GC-10 Able to make reasonable economic decisions in various areas of life	<p>GC- 10.1 Understands the basic principles of the functioning of the economy and economic development, the goals of the form of state participation in the economy</p> <p>GC-10.2 Know how to apply personal economic and financial planning methods to achieve current and long-term financial goals</p> <p>GC-10.3 Able to use financial instruments to manage personal finances (personal budget), controls own economic and financial risks</p>
GC-11 Able to form an intolerant attitude towards corrupt behavior	<p>GC- 11.1 Analyzes the current legal norms that ensure the fight against corruption in various areas of life, as well as ways to prevent corruption and form an intolerant attitude towards it</p> <p>GC-11.2 Know how to plan, organize and conduct activities that ensure the formation of a civil position and the prevention of corruption in society</p> <p>GC-11.3 Complies with the rules of public interaction based on compliance with current legislation and an intolerant attitude towards corruption</p>
GC-12 Able to: search for the necessary sources of information and data, perceive, analyze, memorize and transmit information using digital means, as well as using algorithms when working with data received from various sources in order to effectively use the information received to solve problems; evaluate	<p>GC- 12.1 Know how to search for the necessary sources of information and data, perceives, analyzes, memorizes and transmits information using digital means, as well as using algorithms when working with data received from various sources in order to effectively use the information received to solve problems</p> <p>GC-12.2 Able to evaluate information, its reliability, builds logical conclusions based on incoming information and data</p>

Code and descriptor of generic competence	Code and competence level indicator
information, its reliability, build logical conclusions based on incoming information and data	

8.2. Upon completion of the Educational Programme, the graduate is expected to acquire the following general professional competences (GPCs):

Code and descriptor of general professional competence	Code and competence level indicator
GPC-1 Able to apply knowledge (at an intermediate level) of economic theory in solving applied problems	GPC-1.1 Knows the conceptual apparatus, basic economic laws and methods of economic science GPC-1.2. Able to identify economic problems in the analysis of specific situations and argue his position GPC-1.3. Able to identify the main patterns of economic development and apply them to model the behavior of economic entities
GPC-2 Able to collect, process and statistically analyze the data necessary to solve the set economic problems	GPC-2.1 Able to manage methods and means of collecting, processing and analyzing information necessary to solve standard tasks of a technical and economic assessment of activities in the field of professional activity GPC-2.2. Understands the basics of information and bibliographic culture, allowing you to select the relevant information required for conducting technical and economic calculations in professional activities
GPC-3 Able to analyze and meaningfully explain the nature of economic processes at the micro and macro levels	GPC-3.1 Know how to apply theoretical and methodological knowledge about the principles, laws and mechanisms of a market economy at the level of economic entities GPC-3.2. Know how to apply the principles and methods of economic analysis in substantiating the mechanisms and patterns of functioning of the economy at the micro and macro levels GPC-3.3. Able to analyze and explain the driving forces and essence of the nature of economic processes and events occurring in the economy
GPC-4 Able to offer economically and financially justified organizational and managerial decisions in professional activities	GPC-4.1 Knows the basic technologies for developing organizational and managerial decisions at the level of an enterprise / organization GPC-4.2. Able to economically and financially justify the proposed organizational and managerial decisions at the enterprise/organization level
GPC-5 Able to understand the principles of operation of modern information technologies and use them to solve problems of professional activity	GPC-5.1 Know how to use modern information technologies and software, incl. domestic production, to solve the problems of the digital economy GPC-5.2. Recognizes and takes into account the sources of threats, compliance with information security requirements GPC-5.3. Able to choose modern information technologies and software in solving problems of professional activity

8.3. Upon completion of the Educational Programme, the graduate is expected to acquire the following professional competences (PCs)* :

Code and descriptor of professional competence	Code and competence level indicator	Code and title of occupational standard for relevant PC
PC-1 Able to collect and analyze the initial data necessary for the calculation of economic and socio-economic indicators	PC-1.1. Know how to work with sources of international statistical information, analyze the dynamics of the main characteristics of international economic relations PC-1.2. Know the legal foundations of international economic relations, understand and be able to analyze their impact on the foreign economic policy of the Russian Federation PC-1.3. Able to possess the basic skills and basic skills of applied analysis of the international situation	
PC-2 Able to participate in the implementation of foreign economic projects	PC-2.1. Able to work in a multicultural environment and in an international team PC-2.2. Able to professionally competently analyze and explain the position of Russia PC-2.3. Know how to use the techniques of establishing professional contacts and developing professional communication, including in foreign languages	
PC-3 Able to participate in the implementation of an individual and (or) collective project in the field of international economic relations	PC-3.1. Implement standard algorithms for projects and campaigns in the field of international economic relations PC-3.2. Know how to prepare basic documents to support the project in the field of international economic relations PC-3.3. Able to use the results of research to plan the foreign economic policy of the Russian Federation	
PC-4 Able to analyze and make forecasts of the conjuncture of world markets for goods and services	PC-4.1. Able to professionally and competently analyze the situation on world markets PC-4.2. Know how to use research results for forecast	

*The Educational Programme's developer formulates the PC, taking into account the requirements of occupational standards and the Educational Programme field of study.

9.
