(RUDN University)**

Faculty of Economics

COURSE SYLLABUS

STATISTICS FOR ECONOMISTS

Recommended by the Didactic Council for the Education Field of

38.03.01 Economics

(code and name of the direction of training/specialty)

**The course instruction is implemented within the professional education
programme of higher education**

International Economic Relations

(name (profile/specialization))

1. COURSE GOALS

The goal of studying the discipline "Statistics for Economists" is to prepare professionals who are familiar with modern statistical methods and can apply them to evaluate and analyze the state and patterns of socio-economic development.

Students who study this subject should learn the statistical methods used in domestic and international practice and how to use them to support economic decisions. These methods include:

- The main scientific strategies of statistics and the role of statistical methods in studying socio-economic and financial processes.
- Sources of statistical information and methods for collecting it.
- The methodology for calculating consolidated indicators of financial and economic activities.
- A scientifically justified system of interconnected social and economic indicators, their economic content, and practical applications in financial analysis.
- Methods for calculating and analyzing general indicators for assessing and forecasting socio-economic and financial development.

2. LEARNING OUTCOMES

Studying the discipline "Statistics for Economists" is aimed at the formation of the following competencies (part of competencies) among students:

Table 2.1. List of competencies formed in students when studying the discipline (results of mastering the discipline)

Competence code	Competence	Competence indicators
GPC-2	Capable of collecting, processing, and statistically analyzing the data required to solve a variety of economic issues.	GPC-2.1. Able to manage methods and means of collecting, processing and analyzing information necessary to solve standard tasks of a technical and economic assessment of activities in the field of professional activity
		GPC-2.2. Understand the basics of information and bibliographic culture, allowing students to select the relevant information required for conducting technical and economic calculations in professional activities

3. COURSE IN HIGHER EDUCATION PROGRAMME STRUCTURE

The discipline "Statistics for Economists" refers to the part formed by the participants of the educational relations of block B1 of the EP.

Within the framework of the EP, students also master other disciplines and / or practices that contribute to the achievement of the planned results of mastering the discipline "Statistics for Economists".

Table 3.1. List of Higher Education Programme components / disciplines that

contribute to expected learning/training outcomes

Code	Competence	Previous disciplines/modules, practices*	Subsequent disciplines/modules, practices*
GPC-2	Able to collect, process and statistically analyze the data necessary to solve the set economic problems	Statistics, Accounting Internal control of the company Basics of Taxation Economic geography Economics of Interstate Territorial Disputes Public Presentation Skills and Technologies Basics of trading in the stock market Fundamentals of scientific research	Project-technological internship Undergraduate practice Final state examination procedures Degree thesis procedures

4. COURSE WORKLOAD AND LEARNING ACTIVITIES

The total laboriousness of the discipline "Statistics for Economists" is 3 credit units.

TABLE 4.1. Types of academic activities during the period of the HE programme mastering

Type of educational work	TOTAL, academic hours	Semester			
		1	2	3	4
Contact academic hours	51			51	
including:					
Lectures	17			17	
Lab work					
Seminars (workshops/tutorials)	17			17	
Self-study (ies), academic hours	39			39	
Evaluation and assessment academic hours	18			18	
Overall laboriousness of the discipline	academic hours	108		108	
	credit units	3		3	

5. COURSE MODULES AND CONTENTS

Table 5.1. The content of the discipline (module) by types of educational work.

Course Modules and Contents	Course Modules and Contents	Type of educational work *
	Topic 1. 1. Basics of socio-economic statistics	SC
	Topic 1. 2. Population statistics	SC

Section 1. Social statistics	Topic 1. 3. Statistics of labor resources and the labor market	SC
	Topic 1. 4. Statistics of the standard of living of the population	SC

Course Modules and Contents	Course Modules and Contents	Type of educational work *
Section 2. Macroeconomic statistics	Topic 2.1. National wealth statistics	SC
	Topic 2.2. Statistical methodology of accounting and macroeconomic calculations	SC
Section 3. Economic statistics	Topic 3.1. Public finance statistics	SC
	Topic 3.2. Statistics of money circulation, prices and inflation	SC
	Topic 3.3. Statistics of banking, stock exchange and insurance markets	SC
	Topic 3.4. Statistics of finance of enterprises and organizations	SC

* - is filled only in the **full-time** form of training: LC - lectures; LR - laboratory work; SC - seminar classes

6. CLASSROOM EQUIPMENT AND TECHNOLOGY SUPPORT REQUIREMENTS

Table 6.1. Logistics of discipline

Name of special placements and placements for independent work	Equipment of special placements and placements for independent work	List of licensed software. Details of the confirming document
Seminary	Classroom for seminar-type classes, group and individual consultations, current control and intermediate certification, equipped with a set of specialized furniture and technical means of multimedia presentations.	Notebook Asus F6A, Multimedia projector Casio XJ-S400UN, Screen motorized Digis Electra MW DSEM - 1105
Computer Lab	Computer class for classes, group and individual consultations, current control and intermediate certification, equipped with personal computers (in the amount of 21 pieces), a whiteboard (screen) and technical means of multimedia presentations.	Monoblock Lenovo Intel I5 10160T/8 GB/256 GB/audio, monitor 24", Multimedia projector Casio XJ-V100W, Screen motorized Digis Electra 200*150 Dsem-4303
For independent work of students	An auditorium for independent work of students (can be used for seminars and consultations), equipped with a set of specialized furniture and computers with access to EIOS.	Monoblock Lenovo AIO-510-22 ISH Intel I5 2200 MHz/8 GB/1000 GB/DVD/audio, monitor 21", Multimedia projector Casio XJ-V 100W, Screen motorized Digis Electra 200*150 Dsem-4303
