ПРОГРАММА ПОДГОТОВКИ НАУЧНЫХ И НАУЧНО-ПЕДАГОГИЧЕСКИХ КАДРОВ В АСПИРАНТУРЕ

Научная специальность:

**5.8.2. Теория и методика обучения и воспитания (по областям и уровням
образования)**

(код и наименование научной специальности)

Направленность (профиль):

**Theory and Methodology of Training and Education (Foreign Languages):
Intralinguodidactics, Intercultural Communication / Теория и методика обучения и
воспитания (иностранные языки): интралингводидактика, межкультурная
коммуникация (англ.)**

(наименование программы подготовки научных и научно-педагогических кадров)

Программа подготовки научных и научно-педагогических кадров в аспирантуре
разработана в соответствии с требованиями:

СУТ РУДН, утвержденных приказом ректора от 09 марта 2022 г. № 139

Срок освоения программы подготовки научных и научно-педагогических кадров в
аспирантуре:

3 года

(очная форма обучения)

Сведения об особенностях реализации программы: реализуется на английском языке.

1. OBJECTIVE OF THE PHD PROGRAM

The PhD program objective is to provide students with guidance in the development of academic careers; adapt in scientific environment; solve problems in order to build nationally oriented economy and form quality “human capital”; prepare and defend a dissertation in candidacy for a PhD degree.

Methodological support for the implementation of EP (scientific specialization 5.8.2) “Theory and methodology of training and education” (by fields and education levels) offers students theoretical knowledge in the field of humanities and helps them master practical skills in management and realization of pedagogical activity, namely:

Training objective: to help students acquire knowledge in humanitarian and social fields, as well as skills and abilities required to solve professional problems; to ensure control of the student’s level of competences mastery with an opportunity to choose fields of development and personal and professional qualities’ perfection according to student’s preferences; to enhance the role and importance of Russian education in Europe and the rest of the world.

Education objective: to foster the sense of patriotism, to promote socially responsible behavior, understanding and acceptance of social and ethical norms, as well as the ability to work in a team.

Development objective: to contribute to the formation of a harmonious personality; to develop students’ intellectual sphere and enhance their creative and technical capabilities; to form the value system, needs and aspirations for building a successful career.

2. BRIEF ANNOTATION OF THE PROGRAM

The PhD program prerequisite is to have higher education (Specialist program or Master’s Degree). The PhD program in humanitarian sciences field is realized in-person for 3 years. Professional activities of graduates of this PhD program include pedagogical sciences and related areas of humanitarian research and practical activity.

Information about specific characteristics of general training program: yes.

The subject field includes pedagogical sciences and related humanitarian sciences. Venue: Institute of Foreign Languages RUDN, Miklukho-Maklaya St. 9 (building 4)

The realization of the basic training PhD program (scientific specialisation 5.8.2) Theory and methodology of training and education (by fields and education levels) has the following specific characteristics:

- The program has two profiles: “Theory and methodology of training and education

(foreign languages): intralinguodidactics, intercultural communication” and “Theory and methodology of training and education (foreign languages): intralinguodidactics, intercultural communication” (in English language).

The content of the basic training program “Theory and methodology of training and education (foreign languages): intralinguodidactics, intercultural communication” includes scientific and education components. The course plan includes the following blocks:

Scientific component which includes:

- scientific activity of a PhD program student aimed at preparation of a dissertation in candidacy for a PhD degree (hereinafter referred to as “dissertation”);
- preparation of publications on the dissertation’s main scientific results in peer-reviewed scientific journals or in equivalent scientific journals indexed in the international databases Web of Science and Scopus and in international databases specified in accordance with the recommendations of the Higher Attestation Commission under the Ministry of Science and Higher Education of Russia, as well as in scientific journals indexed in the scientometric database Russian Science Citation Index (RSCI); and/or patent applications for inventions, utility models, industrial designs, selection achievements, certificates of state registration of ECM programs, databases, topologies of integrated circuits;
- mid-term assessment on the stages of scientific research completion.

Education component, including:

- courses (modules) and practical trainings according to the PhD program profile. Educational component includes compulsory courses aimed at preparation for qualifying examinations for a PhD degree.
- mid-term assessment in the specified courses (modules) and practical trainings.

The final evaluation includes assessment of the dissertation for its compliance with the criteria established in accordance with the Federal Law of August 23, 1996 No. 127-FZ "On Science and State Scientific and Technical Policy", in accordance with the requirements of the IAR RUDN University.

3. MARKET DEMAND FOR GRADUATES OF THE PHD PROGRAM

In development and realization of the PhD program (scientific specialization 5.8.2) Theory and methodology of training and education (by fields and education levels) the education provider (RUDN) focuses on a specific type of professional activity, namely, on secondary school teachers, university professors, translators, researchers in universities, research institutes, and private companies. Graduates of the program receive basic training in the humanitarian and social fields and business communication; they are fluent in several foreign languages and master new

technologies in the teaching humanitarian subjects and social sciences.

Graduates of the program are prepared to meet the requirements of the labor market and are adapted to research and material resources of an educational organization.

4. REQUIREMENTS FOR APPLICANTS

The prerequisite of the PhD programs for future professionals in scientific research and pedagogical fields is to have higher education (Specialist program or Master's Degree) in humanitarian or social field. Admission to PhD programs for future professionals in scientific research and pedagogical fields is carried out on a competitive basis with equal possibilities for all applicants.

The most capacitated applicants can enroll into the PhD program for research and teaching professionals. A potential applicant for EP must have a good command of a foreign language, possess knowledge in psychology, pedagogy, methods of foreign languages teaching and have a practical experience in teaching foreign languages in secondary and specialized schools, lyceums, technical schools, universities, institutions of additional education.

To be admitted into a PhD program for research and teaching professionals applicants must pass entry exams.

Entry exams are conducted in a form of a computer test generated by the electronic exam support system (ESS) by random sampling of tasks from a prepared bank of test tasks for a given profile with automatic ESS verification of the completed tasks.

The University takes into account the following individual achievements and evaluates them with the appropriate number of points for each (monographs, articles, diplomas, reports, etc. in the field corresponding to the group of scientific profiles in which the applicant participates in the competition):

1) document of established form with honors, submitted for admission – 5 points;

2) monograph (scientific or popular science publication with the volume of at least five printed sheets, with 2 or more reviewers, and 3 authors or less) – 5 points;

3) scientific publication in a journal indexed by Web of Science/ Scopus/ RSCI – 5 points;

4) invention certificate / utility model certificate / ECM program registration certificate / databases registration certificate – 5 points;

5) diploma of a medalist of All-Russian Student Olympiad “I am a Professional” – 5 points;

6) diploma of a winner of All-Russian Student Olympiad “I am a Professional” – 3 points;

7) diploma of a winner of All-Russian Student Olympiad – 3 points

8) scientific publication in proceedings indexed by Web of Science/ Scopus/ RSCI – 3 points;

9) scientific publication in a HAC journal – 2 points;

10) diploma of an awardee of All-Russian Olympiad “I am a Professional” – 2 points;

11) diploma of an awardee of All-Russian Student Olympiad – 2 points

12) scientific report published in a collection of articles with ISBN indexation – 1 point

5. STRUCTURE AND VOLUME OF RESEARCH AND ACADEMIC STAFF PHD TRAINING PROGRAM

Structure and volume of PhD program: 3 years in-person.

No	Structure of PhD program	Volume of PhD program in credits
1. Scientific Component		150
1.1.	Scientific activity aimed at preparation of the dissertation for defense	128
1.2.	Preparation of publications and (or) applications for patents for inventions, utility models, industrial designs, selection achievements, certificates of state registration of programs for electronic computers, databases, topologies of integrated circuits, as required in paragraph 4 of clause 5 of Federal State Requirements	22
1.3.	Mid-term assessment on the scientific research stages	1,5
2. Education component		24
2.1.	Courses (modules)	13
2.2.	Practical trainings, including pedagogical practical training	5
2.3.	Mid-term assessment of courses (modules) and practical training, including pedagogical practical training	6
3. Final assessment		6
Volume of the PhD program		180

6. CHARACTERISTICS OF GRADUATES' PROFESSIONAL ACTIVITY

1.6.1. Field of professional activity

Fields of professional activity of graduates of the PhD program include pedagogical sciences and related areas of humanitarian research and practical activity.

1.6.2. Object of professional activity

The objects of the PhD program graduates' professional activity are educational and sociocultural systems, training, education, development and socialization processes, pedagogical expertise and monitoring, as well as implementation of specialized software and electronic resources in the humanitarian field.

1.6.3. Types of professional activity

1. Scientific research activity in the field of pedagogical sciences.
2. Pedagogical activity in educational programs of higher education

1.6.4. Objectives of the PhD program students' professional activity:

a) scientific activity:

- development of work plans and programs for scientific research and development; development of research tools and analysis of their results;
- preparation of data for compiling reviews, reports and scientific publications;
- collection, processing, analysis and systematization of information on the research topic, selection of methods and means for solving research problems;
- organization and conducting scientific research, including statistical surveys and polls;
- development of theoretical and econometric models of the studied processes, phenomena and objects related to the field of professional activity, evaluation and interpretation of the results obtained;

b) pedagogical activity:

- teaching in educational institutions of higher professional and secondary professional education, as well as in educational institutions of additional professional education;

- development of training courses in areas of professional activity based on the results of theoretical and empirical research, including preparation of methodological materials, manuals and textbooks using smart technologies and elements of artificial intelligence;
- teaching pedagogical disciplines, educational and methodical work in the areas of professional activity;
- conducting research in an educational organization, including the management of students' scientific work.

The objectives of the PhD program students' professional activities are set in accordance with the requirements of the IAR RUDN approved by the directive of Rector No 139 of "09" March 2022 and are complemented in line with traditions of RUDN educational organization and the needs of interested employers.

7. VENUE OF THE PHD PROGRAM REALIZATION

7.1. The PhD program is realized by FSAEI HE "People's Friendship University of Russia".

7.2. Information about the planned bases for conducting practices and (or) scientific research performing

Practical training and scientific research	The base of the practice <i>(name of the organization, location)</i>
Pedagogical training practice (in-house)	Department of foreign languages in theory and practice of the Institute of Foreign Languages RUDN University, Moscow
Scientific research (in-house)	Department of foreign languages in theory and practice of the Institute of Foreign Languages RUDN University, Moscow

8. SPECIFIC CHARACTERISTICS OF THE PHD PROGRAM REALIZATION

8.1. The PhD program is realized with elements of digital teaching with the use of digital and distance learning technologies.

8.2. Language of the PhD realization: English

8.3. The PhD program is adapted for physically challenged people.
