**Federal State Autonomous Educational Institution of Higher Education
PEOPLES' FRIENDSHIP UNIVERSITY OF RUSSIA
NAMED AFTER PATRICE LUMUMBA**

Medical Institute

(educational division (faculty/institute/academy) as higher education programme developer)

Approved at the meeting of the Academic
Council of RUDN University
Protocol No. 1
January 24, 2011

(date, month, year)

Opened by order of the Rector of
RUDN University
No. 353
April 20, 2011

(date, month, year)

PROFESSIONAL EDUCATION PROGRAMME OF HIGHER EDUCATION

Field of Studies/Speciality:

31.05.03 Dentistry

(field of studies/speciality code and title)

Profile/Specialisation:

Dentistry

(higher education programme title)

The Educational Programme is developed in compliance with:

Federal State Educational Standard of Higher Education, approved by Order of the
Ministry of Education and Science of Russian Federation No. 984 dated August 12, 2020

Level of education:

specialist's

(bachelor's/specialist's/master's – to fill in the required)

Graduate's Qualification:

Doctor of Dentistry

(graduate's qualification in compliance with the order of the Ministry of Education and Science of Russian Federation
dated September 12, 2013, No. 1061)

Length of Educational Programme:

5 years

(full-time education)

-

(part-time education)

-

(correspondence education)

				Management sanitary and hygienic education among the population and medical workers With the purpose of formation healthy lifestyle	A/05.7	7
				Organizational and managerial activity	A/06.7	7

* The wording of labour functions is taken from the relevant Occupational Standards.

8. REQUIREMENTS FOR EDUCATIONAL PROGRAMME OUTCOMES

8.1. Upon completion of the Educational Programme, the graduate is expected to acquire the following Generic Competences (GCs):

Code and descriptor of generic competence	Code and competence level indicator
GC-1. Capable of carrying out critical analysis of problematic situations based on a systems approach, develop an action strategy	GC--1.1. Analyzes a problem situation as a system, identifying its components and the connections between them; GC--1.2. Identifies gaps in the information needed to solve a problem situation and designs processes to eliminate them; GC--1.3. Critically evaluates the reliability of information sources and works with conflicting information from different sources; GC--1.4. Develops and substantively justifies the strategy solutions problematic situations on basis systemic and interdisciplinary approaches; GC--1.5. Uses logical and methodological tools for critical assessments modern concepts philosophical and social character in its subject area;
	GC-2.1. Formulates a project task based on the stated problem and a

Code and descriptor of generic competence	Code and competence level indicator
GC-2. Capable manage a project at all stages of its life cycle	method for solving it through the implementation of project management; GC-2.2. Develops a project concept within the framework of the identified problem: formulates the goal, objectives, justifies relevance, significance, expected results and possible areas of their application; GC-2.3. Plans the necessary resources, including taking into account their replaceability; GC-2.4. Develops a project implementation plan using planning tools; GC-2.5. Monitors the project's progress, corrects deviations, makes additional changes to the project implementation plan, and clarifies the project participants' areas of responsibility;
GC-3. Capable of organizing and managing a team, developing a team strategy to achieve the set goal.	GC-3.1. Produces strategy cooperation And on her on the basis of organizing selection members teams For achievements the set goal, distributing roles in the team; GC-3.2. Plans and adjusts the team's work taking into account the interests, behavioral characteristics, and opinions of its members; assigns tasks and delegates authority to team members; GC-3.3. Resolves conflicts and contradictions in business communication based on consideration of the interests of all parties. GC-3.4. Organizes discussions on a given topic and debates the team's work results, engaging opponents of the developed ideas;
GC-4. Capable of using modern communication technologies, V volume number in foreign language(s), for academic and professional interaction	GC-4.1. Installs And develops professional contacts in accordance with the needs of joint activities, including the exchange of information and the development of a unified interaction strategy. GC-4.2. Compiles, translates from a foreign language into the state language of the Russian Federation and from the state language of the Russian Federation into a foreign language, and also edits various academic texts (abstracts, essays, reviews, articles, etc.), including those in a foreign language; GC-4.3. Presents the results of academic and professional activities at various public events, including international ones, choosing the most appropriate format; GC-4.4. Defends his/her positions and ideas in academic and professional discussions in a reasoned and constructive manner. on state language Russian Federation And foreign language; GC-4.5. Selects a style of business communication in the state language. Russian Federation And foreign language V dependencies from goals And partnership conditions; adapts speech, communication style and sign language to interaction situations;
GC- 5. Capable analyze and take into account the iversity of cultures in the process of intercultural interaction	GC--5.1. Interprets history Russia V context world historical development; GC--5.2. Analyzes the most important: ideological And value systems formed in the course of historical development; substantiates relevance their use at social and professional interaction; GC--5.3. Builds social and professional interactions, taking into account the characteristics of the main forms of scientific and religious consciousness, business and general culture of representatives of other ethnic groups and faiths, and various social groups;

Code and descriptor of generic competence	Code and competence level indicator
	GC--5.4. Ensures the creation of a non-discriminatory environment for interaction in the performance of professional tasks;
GC-6. Capable of identifying and implementing priorities of one's own activities And methods its improvement based on self - assessment and lifelong education	GC--6.1. Assesses one's resources and their limits (personal, situational, time-sensitive), and utilizes them optimally to successfully complete assigned tasks; GC--6.2. Defines priorities for professional growth and ways to improve one's own performance based on self-assessment according to selected criteria; GC--6.3. Develops a flexible professional trajectory using continuous education tools, taking into account accumulated professional experience and dynamically changing labor market demands;
GC-7. Able to maintain the required level of physical fitness to ensure full social and professional activities	GC--7.1. Selects health-saving technologies to maintain healthy image life With taking into account physiological characteristics of the body; GC--7.2. Plans work time to optimally balance physical and mental workload and ensure performance; GC--7.3. Observes and promotes healthy lifestyle standards. V various vital situations And V professional activities;
GC-8. Capable create and maintain in everyday life life And in professional activities, safe living conditions for the preservation of the natural environment, ensuring sustainable development of society, including in the event of a threat or occurrence of emergencies situations and military conflicts	GC--8.1. Analyzes factors that have a harmful impact on the vital functions of environmental elements (technical means, technological processes, materials, buildings and structures, natural and social phenomena); GC--8.2. Identifies hazardous and harmful factors within the framework of the activities carried out; GC--8.3. Resolves issues related to safety violations and participates in measures to prevent emergencies in the workplace; GC--8.4. Observes and explains the rules of conduct in the event of natural and man-made emergencies, provides first aid, and participates in recovery efforts;
GC- 9. Capable use basic defectological knowledge in social and professional spheres	GC--9.1. Understands the concept of inclusive competence, its components, and structure; applies basic defectological knowledge in social and professional spheres; GC--9.2. Interacts in social and professional spheres With persons With limited opportunities health And disabled people; GC--9.3. He knows Fundamentals of defectology;
GC-10. Capable of making informed economic decisions in various areas of life.	GC--10.1. Uses the main documents in the professional sphere, regulatory economic activity, as well as principles of planning economic activities; GC--10.2. Justifies economic decision-making and uses economic planning methods to achieve set goals;
GC-11. Capable of forming an intolerant attitude towards manifestations of extremism, terrorism, corrupt behavior and	GC--11.1. Uses the regulatory framework for combating corruption; ethical standards for relationships between a doctor and a patient (their legal representatives); GC--11.2. Uses practical experience: communication With patients (their legal representatives) in various situations; GC--11.3. Able to correctly determine tactics for interacting with patients in various situations, including cases of provoking a

Code and descriptor of generic competence	Code and competence level indicator
counteract them in professional activities	physician to engage in corrupt behavior. with sides patient (his legal representative);

8.2. Upon completion of the Educational Programme, the graduate is expected to acquire the following general professional competences (GPCs):

Code and descriptor of general professional competence	Code and competence level indicator
GPC-1. Capable of implementing moral and legal norms, ethical and Deontological principles in professional activities.	GPC-1.1. Observes basics medical ethics And deontology; fundamentals of legislation in the field of healthcare; legal aspects of medical practice. GPC-1.2. Applies ethical standards and principles of conduct for a healthcare professional in the performance of their professional duties; knowledge of current healthcare legislation in solving professional problems; apply rules and norms of interaction doctor With colleagues And patients (their legal representatives). GPC-1.3. Has practical experience solutions standard tasks of professional activity based on ethical norms and deontological principles when interacting with colleagues and patients (their legal representatives), knowledge of the legal aspects of medical activity.
GPC-2. Capable of analyzing results of own activities to prevent professional errors.	GPC-2.1. Analyzes the causes of professional errors, unfavorable treatment outcomes, and conflict situations; GPC-2.2. Scientifically substantiates and implements recommendations aimed at improving the medical and legal training of dentists, preventing professional errors, adverse outcomes, and conflict situations; GPC-2.3. Assesses the effectiveness of preventive measures aimed at preventing professional errors, adverse outcomes, and conflict situations in dentistry;
GPC-3. Capable of counteracting doping. in sports and fighting against it.	GPC-3.1. Prepares informational materials aimed at preventing the problem of doping in sports and realizing the health and educational potential of sport; GPC-3.2. Understands action main species doping on a person's physical qualities and their side effects; GPC-3.3. Determines methods anti-doping research;
GPC-4. Capable of conducting and to monitor the effectiveness of measures for prevention, development healthy lifestyle life And sanitary and hygienic education of the population.	GPC-4.1. Analyzes the population's awareness of healthy lifestyles and health literacy; GPC-4.2. Develops a plan to improve public health and disease prevention. Organizational and methodological measures aimed at increasing public awareness of healthy lifestyles and literacy in matters of dental disease prevention; GPC-4.3. Prepares an oral presentation or printed text promoting a healthy lifestyle and increasing public literacy. V questions prevention of dental diseases;
GPC-5. Capable of examining a patient to establish a diagnosis, when deciding professional tasks.	GPC-5.1. Collects anamnesis, analyzes patient complaints, and conducts a physical examination during a dental appointment. GPC-5.2. Formulates a preliminary diagnosis and prepares a plan for laboratory and instrumental examinations of a dental patient. GPC-5.3. Prepares medical documentation for dental patients in accordance with regulatory requirements. GPC-5.4. Refers a patient for laboratory testing if medically

Code and descriptor of general professional competence	Code and competence level indicator
	indicated in accordance with current medical care procedures, clinical guidelines (treatment protocols) on medical care, taking into account dental care standards. GPC-5.5. Refers the patient for instrumental examination if medically indicated in accordance with current medical care procedures and clinical guidelines (treatment protocols) for dental care, taking into account standards. GPC-5.6. Refers the patient for consultation with medical specialists if there are medical indications in accordance with current procedures for the provision of medical care, clinical guidelines (treatment protocols) on issues of providing dental care, taking into account standards. GPC-5.7. Referring a patient for specialized medical care in an inpatient setting or in a day hospital setting if there are medical indications in accordance with current procedures for the provision of medical care, clinical guidelines (treatment protocols) on issues of providing dental care. GPC-5.8. Conducts differential diagnostics with other diseases/conditions, including emergency ones. GPC-5.9. Establishes a diagnosis taking into account the current international statistical classification of diseases and related health problems.
GPC-6. Capable of appointing and exercising control efficiency and safety of non-drug and drug treatments treatment in solving professional problems.	GPC-6.1. Develops a treatment plan for dental disease. With taking into account diagnosis, age And clinical pictures in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) on issues of providing medical care, taking into account the standards of medical care; GPC-6.2. Selects medical devices (including dental materials) to develop a comprehensive treatment plan for dental diseases. Monitors the patient's subsequent treatment; GPC-6.3. Assesses possible side effects from taking medications. GPC-6.4. It turns out medical help to a dental patient in urgent or emergency situations; GPC-6.5. Organizes prevention And treatment complications, side effects, adverse reactions, including unexpected ones, arising as a result of diagnostic or therapeutic manipulations, applications medicinal drugs and/or medical devices, non-drug treatment at a dental appointment; GPC-6.6. Organizes personalized treatment for dental patients, including elderly and senile patients, pregnant women, and children with somatic pathologies, and evaluates the effectiveness and safety of treatment; GPC-6.7. Prescribes medications and medical devices. With taking into account diagnosis, age And clinical paintings, And in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) on issues of providing medical care, taking into account the standards of medical care; GPC-6.8. Prescribes non-drug treatment taking into account the diagnosis, age, and clinical picture of the disease in accordance with current procedures for the provision of medical care, clinical

Code and descriptor of general professional competence	Code and competence level indicator
	guidelines (treatment protocols) on issues of providing medical care, taking into account the standards of medical care; GPC-6.9. Evaluates efficiency And safety the use of drugs, medical devices and other treatment methods during a dental appointment;
GPC-7. Able to organize work and make professional decisions at emergency situations, in emergency situations, epidemics and in outbreaks mass defeats.	GPC-7.1. Capable of organizing work and making professional decisions in emergency situations, emergencies, epidemics, and in areas of mass destruction; GPC-7.2. Proficient in the algorithm for providing first aid in emergency situations, including extreme conditions and mass casualty areas; GPC-7.3. It turns out medical help V emergency form patients in conditions that pose a threat to the life of patients, including clinical death (cessation of vital functions of the human body (circulation and (or) respiration); GPC-7.4. Uses medicinal products and medical devices appointments at provision medical help in an emergency form;
GPC-8. Capable of using basic physical, chemical, mathematical and natural science concepts and methods for solving professional problems.	GPC-8.1. Applies basic fundamental physical and chemical knowledge to solve professional problems; GPC-8.2. Applies applied natural sciences knowledge to solve professional problems; GPC-8.3. Applies fundamental mathematical knowledge to solve professional problems;
GPC-9. Capable of assessing morphofunctional, physiological states and pathological processes in body human to solve professional problems.	GPC-9.1. Proficient in the algorithm of clinical laboratory and functional diagnostics when solving professional problems; GPC-9.2. Evaluates the results of clinical laboratory and functional diagnostics when solving professional problems, including using artificial intelligence technologies; GPC-9.3. Determines morphofunctional, physiological states and pathological processes of the human body;
GPC-10. Capable of organizing the work of junior and mid-level medical personnel in patient care.	GPC-10.1. Monitors the implementation of medical orders by medical workers occupying mid-level and junior medical positions; GPC-10.2. Monitors and evaluates the quality of medical care; GPC-10.3. Manages medical workers occupying mid-level and junior medical positions; GPC-10.4. Makes up plan and report O to your work; GPC-10.5. Analyzes the main medical statistical indicators (morbidity, disability, mortality, fatality) of the population of the service area;
GPC-11. Capable of implementing management principles, quality in professional activities.	GPC-11.1. Performs professional activities of due quality; GPC-11.2. Analyzes and critically evaluates the quality of professional activity based on specified indicators; GPC-11.3. Develops a plan of organizational and methodological measures to achieve the appropriate level of quality of professional activity;
GPC-12. Capable of implementing and monitoring the	GPC-12.1. Develops optimal treatment strategies for dental pathologies in children and adults, taking into account the general medical condition and subsequent patient rehabilitation; GPC-12.2. Applies comprehensive rehabilitation methods to patients

Code and descriptor of general professional competence	Code and competence level indicator
effectiveness of medical rehabilitation for dental patients.	with dental diseases, taking into account the general condition of the body and the presence of concomitant pathology;
GPC-13. Capable solve standard problems of professional activity using information, bibliographic resources, medical and biological terminology, information and communication technologies, taking into account the main information security requirements.	GPC-13.1. Applies information technology in professional activities, including the use of artificial intelligence technologies, and complies with information security rules; information and communication means And technologies V professional activities; GPC-13.2. Observes rules informational security in professional activities;

8.3. Upon completion of the Educational Programme, the graduate is expected to acquire the following professional competences (PCs)* :

Code and descriptor of professional competence	Code and competence level indicator	Code and title of occupational standard for relevant PC
PC-1. Capable of conducting surveys patient with goal establishing a diagnosis.	PC-1.1. Conducts an initial and/or follow-up examination of the patient to establish a preliminary diagnosis; PC-1.2. Obtains information from patients (their relatives/legal representatives), conducts patient surveys regarding their general health status, and identifies concomitant diseases in order to establish a preliminary diagnosis; PC-1.3. Identifies dental, facial, and dental anomalies, deformities, and their developmental prerequisites, as well as crown and dentition defects, based on patient examination, laboratory, instrumental, and additional tests to establish a preliminary/definitive diagnosis; PC-1.4. Identifies oncopathology risk factors in patients (including various background processes and precancerous conditions) based on laboratory, instrumental, and additional examinations to establish a preliminary/definitive diagnosis; PC- 1.5. Installs preliminary/final diagnosis based on examination of the patient, laboratory and instrumental studies; PC-1.6. Installs final diagnosis based on additional examinations of patients;	02.005 Dentist
PC- 2. Capable of appointment, control efficiency and security non-drug and medicinal	PC- 2.1. Organizes the provision of medical care help V emergency And urgent forms at acute dental diseases, conditions, exacerbation of chronic life - threatening diseases	02.005 Dentist

Code and descriptor of professional competence	Code and competence level indicator	Code and title of occupational standard for relevant PC
treatment	patient or without obvious signs threats life Patient; PC- 2.2. Conducts selection of medicinal drugs And medical products (V volume number dental materials) for treatment dental diseases, assessing possible side effects from taking medicinal drugs; PC-2.3. Conducts consulting patient By methods of treating dental diseases, drawing up a comprehensive plan treatment with justification of the most appropriate tactics And evaluating possible complications, caused application this Methods; PC- 2.4. Conducts selection of the type of local anesthesia/pain relief And evaluates possible complications, caused their application. PC-2.5. Conducts specialized reception adults and/or children, implementing observation the progress of treatment of caries, non-carious dental diseases , pulpitis, periodontitis, periodontitis, jaw bone tissue , peripheral nervous system of the maxillofacial region facial areas, temporomandibular jaw joint, salivary iron, diseases mucous shells cavity , with the exception of precancerous lesions using modern methods treatment, permitted For applications V medical Practice; PC-2.6. Conducts orthopedic treatment persons With dental defects , dental arches in within temporary prosthetics, prosthetics of single defects of the dentition, prosthetics of up to three units (excluding prosthetics on dental implants), partial and complete removable plate dentures using modern treatment methods approved for use in medical practice; PC-2.7. Provides surgical care to adults and/or children, within the scope of tooth extraction (excluding impacted and dystopic teeth), opening of subperiosteal abscesses in periostitis of the jaws, in acute and chronic odontogenic inflammatory processes, exacerbation of chronic diseases of the maxillofacial region using modern methods. treatment, permitted For applications in medical practice; PC-2.8. Conducts observation and treatment of diseases of the oral mucosa and lips, with the exception of specialized	

Code and descriptor of professional competence	Code and competence level indicator	Code and title of occupational standard for relevant PC
	treatment for precancerous lesions of the oral mucosa and lips and the treatment of children with manifestations of viral, bacterial, allergic, and other childhood infections in the oral cavity; PC-2.9. Conducts step-by-step sanitation of the oral cavity (excluding sanitation of children under anesthesia); PC-2.10. Provides emergency and urgent medical care, eliminating sources of infection and intoxication; PC-2.11. Refers patients for inpatient treatment for dental diseases in accordance with the established procedure and prepares medical reports. PC-2.12. Provides care to patients with maxillofacial injuries and individuals with disabilities at home; PC-2.13. Performs physiotherapy procedures;	
PC-3. Capable of development, implementation and control the effectiveness of individual rehabilitation programs.	PC-3.1. Provides qualified medical help By their specialty using modern rehabilitation methods approved for use in medical practice. PC-3.2. Creates an individual rehabilitation plan for patients with maxillofacial disorders. PC-3.3. Conducts observation and selection of medications for patient rehabilitation.	02.005 Dentist
PC-4. Capable preventive measures By protection of public health.	PC-4.1. Conducts brief preventive consultations, preventive examinations of the population, and measures to reduce morbidity, including infectious diseases, disability, mortality, and fatality. PC-4.2. Develops a plan for preventive dental care for the patient and selects medications and medical devices in the "Dental Materials" category for the prevention of dental diseases and monitors their implementation. PC-4.3. Provides qualified medical care in their specialty using modern preventive methods approved for use in medical practice. PC-4.4. Organizes control over the prevention of diseases of the oral mucosa and lips, including oncohygienic prevention and secondary prevention of oncological neoplasms, with the exception of specialized appointments for the treatment of precancers of the oral mucosa and lips.	02.005 Dentist
PC-5. Capable sanitary and hygienic education medical workers for the purpose of formation of a healthy lifestyle.	PC-5.1. Develops motivation in patients (their relatives/legal representatives) to lead a healthy lifestyle and give up bad habits. PC-5.2. Develops positive behavior in patients (their relatives/legal representatives) aimed at maintaining and improving health.	02.005 Dentist
PC-6. Capable of analysis of and public	PC-6.1. Conducts searches for evidence-based medical information, interprets data from scientific publications, and/or prepares a presentation for the public presentation	02.005 Dentist

Code and descriptor of professional competence	Code and competence level indicator	Code and title of occupational standard for relevant PC
presentation of medical information based on evidence-based medicine, To participation in the conduct scientific research,	of medical information and the results of scientific research. PC-6.2. Develops algorithms for examination and treatment of adults and children with dental diseases in accordance with the principles of evidence-based medicine, as well as searches for and interprets medical information based on evidence-based medicine. PC-6.3. Conducts public presentation of medical information based on evidence-based medicine/partial participation in scientific research.	
PC-7. Capable of conducting organizational and managerial activities.	PC-7.1. Maintains medical records. PC-7.2. Organizes the management of medical workers, occupying positions mid-level and junior medical personnel, quality control of the implementation/provision of medical care, and medical prescriptions. PC-7.3. Conducts examinations temporary disability of patients, disability due to caring for a sick child, definition medical testimony to employment, transfer to easier working conditions, spa treatment. PC-7.4. Conducts an analysis and provides the main medical statistics indicators in the established order (morbidity, disability, mortality, mortality) of the population of the service area. PC-7.5. Prepares a work plan and a report on his/her work.	02.005 Dentist

*The Educational Programme's developer formulates the PC, taking into account the requirements of occupational standards and the Educational Programme field of study.

9. MATRIX OF COMPETENCES that students acquire when mastering the Educational Programme **Dentistry**, implemented under the RUDN University Academic Council decision dated "20" October 2025 (Protocol No. 0300-YCII-6) in the field of studies / speciality
