## 1. OBJECTIVE OF THE DISCIPLINE

The main goal of this course is to help the students to form a systematic approach to the Modern Mass Media processes and their interaction with today's cultural space and politico-economic condition.

The main objectives are:

- to give the students a clear view of the modern Mass Media systems in their variety, their basic characteristics, connections and functions;
- to help the students develop an understanding of the modern Mass Media development process, their evolution and perspectives, essential problems and controversial issues.;
- to provide the students with the necessary background and criteria of analysis for researching and comparing modern Mass Media systems.

## 2. REQUIREMENTS TO STUDENTS ON FINISHING THE COURSE

Students are expected to master the following competencies:

*Table 2.1. The list of competencies formed in the mastering of the discipline (the results of the discipline)*

| Code  | Competence                                                                                                                                                                                 | Indicators of competence achievement<br>(within the discipline)                                                                                                                           |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| UC-1  | Able to critically analyze problem situations on the basis of a systematic approach, to develop a strategy of action                                                                       | UC-1.1 Knows types, methods, and concepts of critical analysis                                                                                                                            |
|       |                                                                                                                                                                                            | UC-1.2 Can apply types, methods, and concepts of critical analysis to develop a plan of action in problematic situations                                                                  |
|       |                                                                                                                                                                                            | UC-1.3 Knows the basic principles that define the purpose and strategy for dealing with complex situations                                                                                |
| GPC-2 | Able to analyze the main trends in the development of public and state institutions for their diverse coverage in created media texts and/or media products, and/or communication products | GPC-2.1 Identifies cause-and-effect relationships in the problems of interaction between public and state institutions                                                                    |
|       |                                                                                                                                                                                            | GPC-2.2 Observes the principle of impartiality and balance of interests in the journalistic texts and (or) products created when covering the activities of public and state institutions |
| GPC-3 | Able to analyze the diversity of achievements of domestic and world culture in the process of creating media texts and/or media products and/or communication products                     | GPC-3.1 Knows the stages and trends of the domestic and global cultural process                                                                                                           |
|       |                                                                                                                                                                                            | GPC-3.2 Demonstrates diverse erudition in the field of national and world culture in the created journalistic texts and (or) products                                                     |

| <b>Code</b> | <b>Competence</b>                                                                                                                                                                                                                                                        | <b>Indicators of competence achievement<br/>(within the discipline)</b>                                                                                                                                                                                                                                                                    |

| Unit 2. Media Systems, typology, and Analysis                                                                         | <ul style="list-style-type: none"> <li>- Types of Media Systems</li> <li>- Models of Media Systems</li> <li>- Critiques of the model/ Patterns in the development of Western media systems</li> </ul>                                                                                                                                                                                                                                                                                  | Lecture          |
| Unit 3. Media Economics- The interaction between the Media, politics, economic, socio-cultural systems.               | <ul style="list-style-type: none"> <li>- Mass Production and Mass distribution</li> <li>- Media ownership patterns</li> <li>- The Structure of the Media Industry</li> </ul>                                                                                                                                                                                                                                                                                                           | Lecture          |
| Unit 4. Mass Media Systems in the XXI century.                                                                        | <ul style="list-style-type: none"> <li>- US Mass Media System. Concentration of ownership, national and international corporations, corporate Media.</li> <li>- European Mass Media systems: British, French, German Media. Print media circulations.</li> <li>- Asian Media systems. Chinese Mass Media system. State Media. The Great Firewall of China. Japanese Mass Media System. Electronic Media in Japan. Indian Mass Media System.</li> <li>- African Media System</li> </ul> | Lecture          |
| Unit 5. Global Comparative Research of Media System                                                                   | <ul style="list-style-type: none"> <li>- Different criteria to the comparative analysis of the modern Mass Media systems.</li> </ul>                                                                                                                                                                                                                                                                                                                                                   | Lecture          |
| Unit 6. Mass Media and the Global Challenges of the XXI Century.                                                      | <ul style="list-style-type: none"> <li>- The future of traditional Media and new ways of exchanging information (social media).</li> <li>- Global Media and media bias. Information Warfare techniques of the XXI century</li> <li>- The problem of international security and freedom of speech.</li> </ul>                                                                                                                                                                           | Lecture          |
| Unit 1                                                                                                                | The phenomenon of global Media: global distribution with local agenda(Glocalisation).                                                                                                                                                                                                                                                                                                                                                                                                  | Seminar          |
| Unit 2                                                                                                                | New ways of attracting masses: yellow journalism, penny press, new styles of writing news (the inverted pyramid).                                                                                                                                                                                                                                                                                                                                                                      | Seminar          |

| Name of the Unit | Content of the Units (topics)                                                                                                                                      | Type of activity |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|
| Unit 3           | Media systems in a bipolar world: the role of Mass Media in the global political process.                                                                          | Seminar          |
| Unit 4           | The problem of pluralism and media diversity in the state- controlled media market.                                                                                | Seminar          |
| Unit 5           | The phenomena of fake news, misinformation, disinformation as tool of disruption in 21st century.                                                                  | Seminar          |
| Unit 6           | Different criteria to the comparative analysis of the modern Mass Media systems. The interaction between the Media, political, economical, socio-cultural systems. | Seminar          |

## 6. MATERIAL AND TECHNICAL SUPPORT OF THE DISCIPLINE

The discipline is implemented using e-learning and distance learning technologies

*Table 6.1. Material and technical support of the discipline*

| Type of classroom            | Classroom equipment                                                        | Specialized educational/laboratory equipment, software and materials for the mastering of the discipline (if necessary) |
|------------------------------|----------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Digital Classroom            | Computer, TV VCR and a transparency projector; CD players and DVD players. |                                                                                                                         |
| Lecture room                 | Computer, internet, TV VCR and a transparency projector                    |                                                                                                                         |
| Home for independent work    | Computer, internet,                                                        |                                                                                                                         |
| Library for independent work | Computer, internet                                                         |                                                                                                                         |

*Teaching materials for students' independent work while mastering the discipline/module\*:*

1. A course of lectures on the discipline.
2. Practical assignments and their brief contents;
3. Questions for self-check, and test assignments.

\* - all educational and methodical materials for students' independent work are published in the current order on the page of the discipline in TUIS!

## **8. GRADING MATERIALS AND GRADING-RATING SYSTEM FOR ASSESSING THE LEVEL OF COMPETENCE FORMED IN THE DISCIPLINE**

The grading materials and grading-rating system\* for assessing the level of competence (part of competencies) for the discipline are presented in the Appendix to this Working program of the discipline.

\* - are formed based on the requirements of the corresponding local normative act of RUDN University.
