**Federal State Autonomous Educational Institution of Higher Education
PEOPLES' FRIENDSHIP UNIVERSITY OF RUSSIA
NAMED AFTER PATRICE LUMUMBA**

Medical Institute

(educational division (faculty/institute/academy) as higher education programme developer)

Approved at the meeting of the Academic
Council of RUDN University
Protocol No. 1
January 24, 2011

(date, month, year)

Opened by order of the Rector of
RUDN University
No. 353
April 20, 2011

(date, month, year)

PROFESSIONAL EDUCATION PROGRAMME OF HIGHER EDUCATION

Field of Studies/Speciality:

31.05.01 General Medicine

(field of studies/speciality code and title)

Profile/Specialisation:

General Medicine

(higher education programme title)

The Educational Programme is developed in compliance with:

Federal State Educational Standard of Higher Education, approved by Order of the
Ministry of Education and Science of Russian Federation No. 988 dated August 12, 2020

Level of education:

specialist's

(bachelor's/specialist's/master's – to fill in the required)

Graduate's Qualification:

General Practitioner

(graduate's qualification in compliance with the order of the Ministry of Education and Science of Russian Federation
dated September 12, 2013, No. 1061)

Length of Educational Programme:

6 years

(full-time education)

-

(part-time education)

-

(correspondence education)

AGREED by:

Head
of Educational Programme
N.V. Sturov

2024 г.

1. GOAL (MISSION) OF OP VO

The educational program of higher education in specialty 05/31/01 – General Medicine, implemented at the RUDN Medical Institute, is aimed at training qualified specialists in demand in the labor market.

2. RELEVANCE, SPECIFICITY, UNIQUENESS OF THE EDUCATIONAL PROGRAM

General medicine is one of the most popular medical specialties. Students are taught not only methods of treating patients, methods of correct diagnosis of various diseases, but also methods of carrying out preventive and educational work among the population.

3. THE NEED OF THE LABOR MARKET FOR TRAINING PERSONNEL ACCORDING TO THE PROFILE OF EP HE

The educational program implemented at the RUDN Medical Institute is focused on a specific type of professional activity for which a specialist is preparing, based on the needs of the labor market. The main potential employers are public and private medical institutions.

5. SPECIAL REQUIREMENTS FOR POTENTIAL APPLICANTS

Admission is carried out on a competitive basis based on applications from persons who have a state-issued document on secondary (complete) general education or secondary vocational education, based on the results of the Unified State Examination or the results of testing in disciplines.

6. FEATURES OF EP HE IMPLEMENTATION

6.1. EP HE is implemented with elements of the use of e-learning/distance educational technologies (Lectures in DOT).

6.2. The language of implementation of OP VO is Russian

6.3. The program is adapted for training disabled people and people with limited health capabilities.

6.5. Information on the planned bases for conducting educational/industrial internships and (or) research work

Practice*	Practice base (name of organization, location)
Introductory practice to obtain primary professional skills: nursing (educational, stationary)	RUDN Accreditation and Simulation Center, Moscow
Introductory practice to obtain primary professional skills: nursing (educational, stationary)	Clinical bases, Moscow
Internship to obtain primary professional skills: assistant to junior medical staff (production)	Clinical bases, Moscow
Diagnostic practice: assistant ward nurse (production)	Clinical bases, Moscow
Practice in emergency medical procedures (industrial)	RUDN Accreditation and Simulation Center, Moscow
Practice to gain primary professional skills and professional experience: procedural nurse assistant (production)	Moscow

Practice*	Practice base (name of organization, location)
Surgical practice: assistant surgeon (industrial)	Clinical bases, Moscow
Obstetrics and gynecology practice: assistant gynecologist (industrial)	Clinical bases, Moscow, Moscow region
Assistant physician of therapeutic profile: assistant physician therapist (industrial)	Clinical bases, Moscow, Moscow region
General medical practice: assistant physician of an outpatient clinic (industrial)	Clinical bases, Moscow, Moscow region
Obstetrics and gynecology practice: assistant obstetrician (industrial)	Clinical bases, Moscow, Moscow region
General medical practice: pediatric assistant (industrial)	Clinical bases, Moscow, Moscow region

* - the type of internship is indicated (educational/industrial), the type of internship is its name (introductory, technological, research, pre-diploma, etc.), method of conduct (stationary/exit).

7. CHARACTERISTICS OF PROFESSIONAL ACTIVITY OF A GRADUATE OF AN EP

7.1. Areas of professional activity and areas of professional activity in which graduates who have mastered the specialty program can carry out professional activities:

01 Education and science (in the field of scientific research);

02 Healthcare (in the field of providing primary health care to the population in medical organizations: clinics, outpatient clinics, inpatient and outpatient facilities of the municipal health care system and treatment and preventive institutions providing primary health care to the population);

07 Administrative, managerial and office activities (in the field of activity of healthcare organizations).

7.2. Type(s) of professional tasks that a graduate is preparing to solve as part of mastering the EP HE:

medical;

research;

organizational and managerial.

Objectives of professional activity.

A graduate of the specialty program **05/31/01 General Medicine**, in accordance with the type(s) of professional activity to which the specialty program is focused, is ready to solve the following professional tasks:

medical:

preventing the occurrence of diseases among the population by carrying out preventive and anti-epidemic measures;

Conducting preventive medical examinations, medical examinations, and follow-up;

carrying out the collection and medical-statistical analysis of information on health indicators of the population of various age and sex groups, characterizing their health status;

diagnosis of diseases and pathological conditions of patients;

diagnosis of emergency conditions;

pregnancy diagnosis;

conducting an examination of temporary disability and participating in other types of medical examination; provision of primary medical care in outpatient and day hospital settings;

provision of primary medical care for sudden acute diseases, conditions, exacerbation of chronic diseases that are not accompanied by a threat to the patient's life and do not require emergency medical care;

participation in the provision of emergency medical care for conditions requiring urgent medical intervention;

provision of medical care in emergency situations, including participation in medical evacuation; participation in medical rehabilitation and sanatorium-resort treatment;

formation of motivation among the population, patients and members of their families aimed at preserving and strengthening their health and the health of others;

training patients in basic hygienic health measures that help prevent the occurrence of diseases and promote health;

research:

analysis of scientific literature and official statistical reviews, participation in statistical analysis and public presentation of the results obtained;

participation in solving certain research and scientific-applied problems in the field of health care in diagnosis, treatment, medical rehabilitation and prevention.

organizational and managerial:

application of the basic principles of organizing the provision of medical care in medical organizations and their structural divisions;

creation in medical organizations of favorable conditions for the stay of patients and the work of medical personnel;

maintaining medical records in medical organizations;

organization of medical examination;

participation in organizing assessment of the quality of medical care provided to patients;

compliance with basic information security requirements.

7.3. List of generalized labor functions and labor functions related to the professional activity of a graduate of an EP HE, in accordance with which the program was developed*

Code and name of prof. standard	Generalized labor functions			Labor functions		
	code	Name	skill level	Name	code	level (sublevel) of qualification
Professional standard "Physician (precinct general practitioner)", approved by order of the Ministry of Labor and Social Protection of the Russian Federation dated March 21, 2017 No. 293n	A	Providing primary health care to the adult population in an outpatient setting that does not provide round-the-clock medical supervision and treatment, including at home when a medical professional is called	7	Providing emergency or emergency medical care to a patient	A/01.7	7
				Conducting a patient examination to establish a diagnosis	A/02.7	7
				Prescribing treatment and monitoring its effectiveness and safety	A/03.7	7
				Implementation and monitoring of the effectiveness of the patient's medical rehabilitation, including the implementation of	A/04.7	7

Code and name of prof. standard	Generalized labor functions			Labor functions		
	code	Name	skill level	Name	code	level (sublevel) of qualification
					individual rehabilitation or habilitation programs for people with disabilities, assessment of the patient's ability to carry out work activities	
				Maintaining medical records and organizing the activities of nursing staff	A/06.7	

* - the formulation of labor functions is adopted from the relevant Professional Standards.

8. REQUIREMENTS FOR THE RESULTS OF MASTERING EP HE

8.1. Upon completion of mastering the EP HE, the graduate must have the following universal competencies (UC):

Code and name of competence	Code and name of the competency achievement indicator
UC-1 Able to critically analyze problem situations based on a systematic approach and develop an action strategy	UC-1.1 Analyzes scientific and technical literature and regulatory documentation of medical organizations UC-1.2 Critically evaluates the reliability of information sources, works with conflicting information from different sources UC-1.3 Understands trends, strategic objectives, problems in the field of health care, navigates the legislative framework for developing strategies UC-1.4 Analyzes and evaluates the economic potential, financial stability and risks of the organization
UC-2 Able to manage a project at all stages of its life cycle	UC-2.1 Knows regulations and standards in the field of healthcare UC-2.2 Understands the features of organizing and managing nursing activities, quality control of medical care, organizational and methodological activities of a medical organization UC-2.3 Able to plan and manage structural units of a medical organization UC-2.4 Develops a project concept within the framework of the identified problem: formulates the goal, objectives, justifies the relevance, significance, expected results
UC-3 Able to organize and manage the work of a team, developing a team strategy to achieve the goal	UC-3.1 Knows the similarities and differences between projects and business processes, marketing research methods, principles of communication with personnel

Code and name of competence	Code and name of the competency achievement indicator
	UC-3.2 Has the skills of making management decisions, organizing teamwork, organizing meetings and business conversations
UC-4 Able to apply modern communication technologies, including in a foreign language(s), for academic and professional interaction	UC-4.1 Reasonably and constructively defends one's positions and ideas in academic and professional discussions in the state language of the Russian Federation and a foreign language UC-4.2 Compiles, translates and edits various academic texts (abstracts, essays, reviews, articles, etc.), including in a foreign language UC-4.3 Presents the results of academic and professional activities at various public events, including international ones, choosing the most appropriate format
UC-5 Able to analyze and take into account the diversity of cultures in the process of intercultural interaction	UC-5.1 Interprets the history of Russia in the context of world historical development UC-5.2 Possesses the skills of conducting business correspondence in a foreign language UC-5.3 Builds social professional interaction taking into account international legislation in the field of health care and the characteristics of intercultural interaction
UC-6 Able to determine and implement priorities for one's own activities and ways to improve them based on self-esteem and lifelong education	UC-6.1 Evaluates one's resources and their limits (personal, situational, temporary), uses them optimally to successfully complete the assigned task UC-6.2 Analyzes the results obtained in the course of his professional activities, carries out self-monitoring and self-analysis of the process and results of professional activities, critically evaluates them, draws objective conclusions on his work, correctly defends his point of view UC-6.3 Determines priorities for professional growth and ways to improve one's own activities based on self-assessment according to selected criteria
UC-7 Able to maintain the proper level of physical fitness to ensure full-fledged social and professional activities	UC-7.1 Knows types of physical exercises; scientific and practical foundations of physical culture and healthy lifestyle and lifestyle UC-7.2 Able to apply in practice a variety of means of physical culture, sports and tourism to preserve and strengthen health, psychophysical preparation and self-preparation for future life and professional activities; use creative means and methods of physical education for professional and personal development, physical self-improvement, formation of a healthy image and lifestyle UC-7.3 Knows the means and methods of strengthening individual health and physical self-improvement
UC-8 Able to create and maintain safe living conditions in everyday life and professional activities to preserve the natural environment, ensure sustainable development of society, including in the event of the threat and occurrence of	UC-8.1 Knows the causes, signs and consequences of hazards, methods of protection against emergency situations; life safety basics, emergency phone numbers UC-8.2 Able to identify signs, causes and conditions of emergency situations; assess the likelihood of a potential danger for a student and take measures to prevent it in an educational institution; provide first aid in emergency situations

Code and name of competence	Code and name of the competency achievement indicator
emergencies and military conflicts	UC-8.3 Knows methods of predicting the occurrence of dangerous or emergency situations; skills to maintain safe living conditions
UC-9 Able to use basic defectological knowledge in the social and professional spheres	UC-9.1 Knows the concept of inclusive competence, its components and structure. Subject, purpose, role and place of adaptive economics UC-9.2 Able to apply basic defectological knowledge in social and professional spheres UC-9.3 Possesses basic defectological knowledge in the social and professional spheres, taking into account the characteristics of individuals with health conditions
UC-10 Able to make informed economic decisions in various areas of life	UC-10.1 Knows the conceptual apparatus of economic science, the basic principles of the functioning of the economy, the goals and mechanisms of the main types of social economic policy UC-10.2 Able to use economic and financial planning methods to achieve the set goal UC-10.3 Possesses the skills of using economic tools for financial management, taking into account economic and financial risks in various areas of life
UC-11 Able to form an intolerant attitude towards manifestations of extremism, terrorism, corrupt behavior and counteract them in professional activities	UC-11.1 Knows the basic terms and concepts of civil law used in anti-corruption legislation, current anti-corruption legislation and the practice of its application UC-11.2 Able to correctly interpret civil law terms used in anti-corruption legislation; assess corrupt behavior and apply anti-corruption legislation in practice UC-11.3 Possesses the skills of correct interpretation of civil terms used in anti-corruption legislation, as well as the skills of applying anti-corruption legislation in practice, legal qualifications of corrupt behavior and its suppression

8.2. Upon completion of mastering the EP HE, the graduate must have the following general professional competencies (GPC):

Code and name of competence	Code and name of the competency achievement indicator
GPC-1 Able to implement moral and legal norms, ethical and deontological principles in professional activities	GPC-1.1 Able to comply with moral and legal standards in professional activities GPC-1.2 Able to present professional information in the process of intercultural interaction, observing the principles of ethics and deontology
GPC-2 Capable of conducting and monitoring the effectiveness of prevention measures, promoting a healthy lifestyle and sanitary and hygienic education of the population	GPC-2.1 Able to analyze the public's awareness of a healthy lifestyle and medical literacy GPC-2.2 Able to develop a plan of organizational and methodological measures aimed at increasing the population's awareness of a healthy lifestyle, their literacy in matters of disease prevention GPC-2.3 Able to prepare an oral presentation or printed text that promotes a healthy lifestyle and increases the literacy of the population in matters of disease prevention

Code and name of competence	Code and name of the competency achievement indicator
GPC-3 Capable of countering and combating the use of doping in sports	<p>GPC-3.1 Able to interact with specialists, as part of working with regulations governing relations in the field of documentation on anti-doping legislation in the Russian Federation</p> <p>GPC-3.2 Can analyze the biochemical, physicochemical and molecular biological mechanisms of the development of pathological processes in the cells and tissues of the athlete's body when taking prohibited drugs, determining the principles of the flow of biochemical processes when taking prohibited drugs</p> <p>GPC-3.3 Be able to implement forms and methods of conducting preventive information and practical anti-doping activities</p>
GPC-4 Able to use medical devices provided for in the procedure for providing medical care, as well as conduct examinations of the patient in order to establish a diagnosis	<p>GPC-4.1 Able to use medical devices in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) on the provision of medical care, assistance taking into account the standards of medical care</p> <p>GPC-4.2 Able to assess the effectiveness and safety of medical devices</p> <p>GPC-4.3 Master the technique of performing typical medical procedures using medical devices provided for in the procedures for providing medical care</p>
GPC-5 Able to assess morphofunctional, physiological states and pathological processes in the human body to solve professional problems	<p>GPC-5.1 Masters the algorithm for clinical, laboratory and functional diagnostics when solving professional problems</p> <p>GPC-5.2 Able to evaluate the results of clinical, laboratory and functional diagnostics when solving professional problems</p> <p>GPC-5.3 Able to determine morphofunctional, physiological states and pathological processes in the human body based on knowledge of the structure of the human body, the functioning of organs and systems in normal and pathological conditions</p>
GPC-6 Capable of organizing patient care, providing primary health care, ensuring the organization of work and making professional decisions in emergency conditions at the prehospital stage, in emergency situations, epidemics and in areas of mass destruction	<p>GPC-6.1 Knows the algorithm for providing first medical aid in emergency conditions, including in extreme conditions and areas of mass destruction</p> <p>GPC-6.2 Able to identify conditions requiring emergency medical care, including clinical signs of sudden cessation of blood circulation and breathing</p> <p>GPC-6.3 Able to provide emergency medical care to patients in conditions that pose a threat to the lives of patients, including clinical death (cessation of vital functions of the human body (blood circulation and (or) respiration)</p>
GPC-7 Able to prescribe treatment and monitor its effectiveness and safety	<p>GPC-7.1 Proficient in general clinical examination methods, interpretation of laboratory results, instrumental diagnostic methods</p> <p>GPC-7.2 Knows the algorithm for making a preliminary diagnosis with subsequent referral of the patient to the appropriate medical specialist</p> <p>GPC-7.3 Capable of selecting medications for the diagnosis, treatment and prevention of diseases, assessing their effectiveness, safety and drug-drug interactions</p>

Code and name of competence	Code and name of the competency achievement indicator
<p>GPC-8 Able to implement and monitor the effectiveness of the patient's medical rehabilitation, including in the implementation of individual rehabilitation and habilitation programs for people with disabilities, and assess the patient's ability to carry out work activities</p>	<p>GPC-8.1 Able to determine medical indications for carrying out medical rehabilitation measures, including when implementing an individual rehabilitation program or habilitation for people with disabilities</p> <p>GPC-8.2 Able to carry out medical rehabilitation measures for a patient in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care</p> <p>GPC-8.3 Able to identify medical specialists to carry out rehabilitation measures for a patient in need of medical rehabilitation, taking into account the diagnosis and in accordance with the current procedures for the provision of medical care</p> <p>GPC-8.4 Able to prescribe sanatorium-resort treatment to a patient in need of medical rehabilitation, including when implementing an individual rehabilitation program or habilitation for people with disabilities</p> <p>GPC-8.5 Able to monitor the implementation and evaluate the effectiveness and safety of rehabilitation measures, including the implementation of an individual program of rehabilitation or habilitation for people with disabilities, taking into account the diagnosis in accordance with the current procedures for the provision of medical care</p>
<p>GPC-9 Able to implement the principles of quality management in professional activities</p>	<p>GPC-9.1 Able to perform professional activities of appropriate quality</p> <p>GPC-9.2 Able to analyze and critically evaluate the quality of professional activity according to given indicators</p> <p>GPC-9.3 Able to develop a plan of organizational and methodological measures to achieve the appropriate level of quality of professional activity</p>
<p>GPC-10 Able to solve standard problems of professional activity using information, bibliographic resources, medical and biological terminology, information and communication technologies, taking into account the basic requirements of information security</p>	<p>GPC-10.1 Able to use modern information and communication tools and technologies in professional activities</p> <p>GPC-10.2 Able to comply with information security rules in professional activities</p> <p>GPC-10.3 Able to use information and communication technologies, including general and special-purpose application software when solving professional problems</p>
<p>GPC-11 Able to prepare and apply scientific, research and production, design, organizational, managerial and regulatory documentation in the healthcare system</p>	<p>GPC-11.1 Able to prepare scientific, research and production, design, organizational, managerial and regulatory documentation in accordance with the direction of professional activity and the current requirements for their preparation</p> <p>GPC-11.2 Able to apply medical terminology, scientific, research and production, design, organizational, managerial and regulatory documentation within the framework of their professional activities</p>

8.3. List of professional competencies (PC)* that a graduate who has fully mastered the EP HE must have:

Code and name of the UC	Code and name of the competency achievement indicator	Code and name of prof. standard on the basis of which the PC is formulated
PC-1. Capable of providing medical care to a patient in an emergency or emergency manner	<p>PC-1.1. Able to assess the condition of a patient requiring urgent or emergency medical care.</p> <p>PC-1.2. Able to recognize conditions that arise from sudden acute diseases, exacerbation of chronic diseases without obvious signs of a threat to the patient's life and requiring emergency medical care.</p> <p>PC-1.3. Able to provide emergency medical care to patients with sudden acute diseases, conditions, exacerbation of chronic diseases without obvious signs of a threat to the patient's life.</p> <p>PC-1.4. Able to recognize conditions that pose a threat to the patient's life, including states of clinical death (cessation of vital functions of the human body (blood circulation and/or breathing), requiring emergency medical care.</p> <p>PC-1.5. Capable of providing emergency medical care to patients in conditions that pose a threat to the patient's life, including clinical death (cessation of vital functions of the human body (blood circulation and/or breathing).</p> <p>PC-1.6. Able to use medications and medical products when providing emergency or emergency medical care.</p>	Professional standard "Physician (precinct general practitioner)", approved by order of the Ministry of Labor and Social Protection of the Russian Federation dated March 21, 2017 No. 293n
PC-2. Capable of examining a patient to establish a diagnosis	<p>PC-2.1. Possesses the skills of collecting complaints, medical history and illness of the patient, as well as conducting a complete physical examination of the patient (inspection, palpation, percussion, auscultation).</p> <p>PC-2.2. Able to formulate a preliminary diagnosis and draw up a plan for laboratory and instrumental examinations of the patient.</p> <p>PC-2.3. Able to refer the patient for laboratory examination if there are medical indications in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p> <p>PC-2.4. Able to refer the patient for an instrumental examination if there are medical indications in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p> <p>PC-2.5. Is able to refer the patient for consultation with medical specialists if there are medical indications in accordance with the current procedures for the provision</p>	Professional standard "Physician (precinct general practitioner)", approved by order of the Ministry of Labor and Social Protection of the Russian Federation dated March 21, 2017 No. 293n

Code and name of the UC	Code and name of the competency achievement indicator	Code and name of prof. standard on the basis of which the PC is formulated
	<p>of medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p> <p>PC-2.6. Able to refer a patient to provide specialized medical care in an inpatient setting or in a day hospital if there are medical indications in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p> <p>PC-2.7. Able to carry out differential diagnosis with other diseases/conditions, including emergencies, and also establish a diagnosis taking into account the current international statistical classification of diseases and health problems (ICD).</p>	
<p>PC-3. Capable of prescribing treatment and monitoring its effectiveness and safety</p>	<p>PC-3.1. Able to develop a treatment plan for a disease or condition taking into account the diagnosis, age and clinical picture in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) for the provision of medical care, taking into account the standards of medical care.</p> <p>PC-3.2. Able to prescribe medications, medical devices and nutritional therapy, taking into account the diagnosis, age and clinical picture of the disease and in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p> <p>PC-3.3. Able to prescribe non-drug treatment taking into account the diagnosis, age and clinical picture of the disease in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) for the provision of medical care, taking into account the standards of medical care.</p> <p>PC-3.4. Able to evaluate the effectiveness and safety of the use of drugs, medical devices, nutritional therapy and other treatment methods.</p> <p>PC-3.5. Able to provide palliative care in collaboration with medical specialists and other health care providers.</p> <p>PC-3.6. Capable of organizing personalized treatment for patients, including pregnant women, elderly and senile patients, and assessing the effectiveness and safety of treatment.</p>	<p>Professional standard “Physician (precinct general practitioner)”, approved by order of the Ministry of Labor and Social Protection of the Russian Federation dated March 21, 2017 No. 293n</p>
